PRAYER

Let us bless the Lord this day and all that is within us bless His Holy Name. It is, O Lord, our greatest stay to know that Thou readest our hearts. Give us more of that open-hearted sincerity in the work before us. Keep us ever from being afraid of Thine eye and from that inward consciousness of not honestly trying to please Thee. Quiet the sentiments of defiance and hate that make for unhappiness. Make us realize, under Thy holy protection, the importance of joining together in unity of mind and purposes. Continue, we beseech Thee, to bestow Thy heavenly gifts upon us and Thy people that thereby we may all deserve to obtain perfect freedom and advance together in happiness and prosperity. Direct our thoughts and purposes for the fulfillment of Thy will so that our State may continue to enjoy its place of greatness in our Nation. AMEN.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 210.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 4, 1957

*To the Honorable Members of the Senate
Sacramento, California*

GENTLEMEN:

Senate Bill No. 210, "An act to add Chapter 4 (commencing at Section 1300) to Division 6 of the Military and Veterans Code, relating to veterans' organizations, creating the United Spanish War Veterans Commission, and prescribing its powers and duties, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates \$6,000 from the General Fund to the United Spanish War Veterans Commission created therein. This commission is to promote the interests of veterans of the Spanish-American War and provide a California headquarters for the United Spanish War Veterans. In view of the objectives of this bill and its small appropriation, no purpose would be served by withholding action upon it until after final passage of the Budget Bill.

I therefore recommend consideration of Senate Bill No. 210 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

"3449. An insolvent debtor may in good faith execute an assignment of property in trust for the satisfaction of his creditors, in conformity to the provisions of this chapter; subject, however, to the provisions of this code relative to trusts and fraudulent transfers, and to the restrictions imposed by law upon assignments by special partnerships, by corporations, or by other specific classes or persons.

Every such assignment shall contain a list of the names of the creditors of the assignor, and their places of residence and amounts of their respective demands, and the amounts and nature of any security therefor, and shall, subject to the other provisions of this section, be made to [the sheriff of] a *temporary assignee residing* in the county, or city and county, wherein the assignor resides, if the assignor resides within this State; or in case the assignor resides out of this State, then to [the sheriff of] a *temporary assignee residing* in the county, or city and county, wherein the property assigned, or some of it, is situated; but when the assignor resides out of the State, an assignment made as herein provided may, by its terms, transfer any property of the assignor in this State.

The [sheriff] *temporary assignee* shall forthwith take possession of all the property so assigned to him, and keep the same till delivered by him, as hereinafter provided.

When the assignment has been made as herein provided, the [sheriff] *temporary assignee* shall immediately, by mail, notify the creditors named in the assignment, at their places of residence as given therein, to meet at his office on a day and hour to be appointed by him, of not less than eight nor more than 10 days from the date of the delivery of the assignment to him, for the purpose of electing one or more assignees, as they may determine, in the place and stead of the said [sheriff] *temporary assignee* in the premises[.], [and]

The *temporary assignee* shall also publish a notice of such meeting, and the purpose thereof, at least once before such meeting, in some newspaper published in his county, or city and county. The notice so to be mailed shall also contain a statement of the amount of the demand of the creditor, and the amount and nature of any security therefor, as set forth in the assignment; and if any creditor shall not find the amount of his claim to be correctly so stated, he may file with said [sheriff] *temporary assignee*, at or before such meeting, a statement, under oath, of his demand, and such statement shall, for the purpose of voting as hereinafter provided, be accepted by said [sheriff] *temporary assignee* as correct; and when no such statement is filed, the statement of amount as set forth in the assignment shall be accepted by the [sheriff] *temporary assignee* as correct.

No creditor having a mortgage or pledge of real or personal property of the debtor, or lien thereon, for securing the payment of a debt owing to him from the debtor, shall be allowed to vote any part of his claim at such meeting of creditors, unless he shall have first conveyed, released, or delivered up his said security to said [sheriff] *temporary assignee*, for the benefit of all creditors of said assignor.

At such meeting the [sheriff] *temporary assignee* shall preside, and a majority in amount of demands present or represented by proxy shall control all questions and decisions. The creditors may adjourn such meeting from time to time, and may vote on all questions either in person or by proxy signed and acknowledged before any officer authorized to take acknowledgments, and filed with the [sheriff] *temporary assignee*.

At such a meeting, or any adjournment thereof, the creditors may elect one or more assignees from their own number, in the place and stead of the [sheriff] *temporary assignee*, and the person or persons so elected shall afterwards be the *temporary assignee*, and the person or persons so elected shall afterwards be the *temporary assignee*, and the person or persons so elected shall afterwards be the *temporary assignee*, by transfer in writing, acknowledged as required by Section 3458, shall at once assign to such elected assignee or assignees, upon the trusts in this title provided, all the property so assigned to him, and deliver possession thereof. All recitals, in such assignment by said [sheriff] *temporary assignee* of notices of such meeting, and the holding thereof, and of the due election of such assignee or assignees, shall be prima facie proof of the facts recited.

The [sheriff] *temporary assignee* shall, before the delivery of such assignment, be paid the expenses incurred by him, and fees in such amount as would by law be collectable if the property assigned had been levied upon and safely kept under attachment. Thereupon, and after the record of such last named assignment, as in this title provided, such elected assignee or assignees shall take, and hold, and dispose of all such property and its proceeds, upon the trusts and conditions and for the purposes in this title provided.

Sec. 2. Section 3458 of said code is amended to read:

3458. An assignment for the benefit of creditors must be in writing, subscribed by the assignor, or by his agent thereto authorized in writing, and the transfer by

the [sheriff] *temporary assignee* must also be in writing, subscribed by [the sheriff in his official capacity] *such temporary assignee*. Both such assignment and such transfer must be acknowledged, or proved and certified, in the mode prescribed by the chapter on recording transfers of real property, and be recorded as required by Sections 3463 and 3464; but recording in one county constitutes a compliance with the following section.

SEC. 3. Section 3462 of said code is amended to read:

3462. An affidavit must be made by every assignor executing an assignment for the benefit of creditors, to be annexed to and filed with the inventory mentioned in the last section, to the effect that the same is in all respects just and true according to the best of such assignor's knowledge and belief.

If the assignor neglects or refuses to make and file such inventory and affidavit within said 20 days, the assignment shall not, for that reason, be affected in any way, but in that event the assignee or assignees elected by the creditors shall within 20 days thereafter make and file in the office of the county recorder where the assignment is first recorded, a verified inventory of all assets received by them; and such assignee or assignees may at any time, or from time to time, after the transfer to them by the [sheriff] *temporary assignee*, by petition to the superior court of the county or city and county where the assignment is first recorded, cause the assignor, by order or citation to appear before said court, or a commissioner or referee to be appointed by it, at a time and place within the county, or city and county, to be designated in the order or citation, to be examined touching the matters mentioned in Section 3461, and any other matters relative to the assignment, and to have with him all books of account, vouchers, and papers relating to the assigned property; and such court may by its order require the surrender to such assignee or assignees of such books, vouchers, and papers, to be by them retained until their trust is fully completed and performed.

SEC. 4. Section 3467 of said code is amended to read:

3467. No bond shall be given by the [sheriff] *temporary assignee*, but he shall be liable [on his official bond] for the care and custody of the property while in his possession. Within 40 days after date of the transfer by the [sheriff] *temporary assignee*, the *elected assignee* must enter into a bond to the people of this State in such amount as may be fixed by a judge of the superior court of the county, or city and county, in which an inventory in accordance with the provisions of this title is filed, with sufficient sureties to be approved by such judge and conditioned for the faithful discharge of the trust and the due accounting for all moneys received by the assignee, which bond must be filed in the same office with the inventory; and any assignee failing to comply with the provisions of this section may be removed by the above-named superior court on petition of the assignor or any creditor, and his successor appointed by such court.

SEC. 5. Section 3468 of said code is amended to read:

3468. Until a verified inventory has been made and filed, either by the assignor or assignee, as required by the provisions of this title, and the assignee has given the bond required by the last section, such assignee has no authority to dispose of the property of the estate or any part of it (except in the case of perishable property, which in his discretion he may dispose of at any time, and receive the proceeds of sale thereof); nor has he power to convert the property, or the proceeds of any sale of perishable property, to the purposes of the trust.

Within 10 days after the filing of his bond, the assignee must commence the publication (and such publication shall continue at least once a week for four weeks), in some newspaper published in the county, or city and county, where the inventory is filed, of a notice to creditors of the assignor, stating the fact and date of the assignment, and requiring all persons having claims against the assignor to exhibit them, with the necessary vouchers, and verified by the oath of the creditor, to the assignee, at his place of residence or business, to be specified in the notice; and he shall also, within 10 days after the first publication of said notice, mail a copy of such notice to each creditor whose name is given in the instrument of assignment, at the address therein given. After such notice is given, a copy thereof, with affidavit of due publication and mailing, must be filed with the county recorder with whom the inventory has been filed, which affidavit shall be prima facie evidence of the facts stated therein.

At any time, or from time to time, after the expiration of 30 days from the first publication of said notice (provided, the same shall also have been mailed as in this section provided), the assignee may, in his discretion, declare and pay dividends to the creditors whose claims have been presented and allowed. No dividend already declared shall be disturbed by reason of claims being subsequently presented and allowed; but the creditor presenting such claim shall be entitled to a dividend equal to the percent already declared and paid, before any further dividend is made; provided, however, that there be assets sufficient for that purpose; and provided, that the failure to present such claim shall not have resulted from his own neglect, and he shall attach to such claim a statement, under oath, showing fully why the same was not before presented.

When a creditor has a mortgage or pledge of real or personal property of the debtor, or a lien thereon, for securing the payment of a debt owing to him from the debtor, and shall not have conveyed, released, or delivered up such security to the [sheriff] *temporary assignee*, as provided for by Section 3449 of this code, he shall

be admitted as a creditor only for the balance of the debt after deducting the value of such mortgage, pledge, or lien, to be ascertained by agreement between him and the assignee, or by a sale thereof, to be made in such manner as the superior court of the county in which the assignment is made shall direct; or the creditor may release or convey his claim to the assignee upon such property, and be admitted to prove his whole debt.

If the value of the property exceeds the sum for which it is so held as security, the assignee may release to the creditor the debtor's right of redemption thereon on receiving such excess; or he may sell the property, subject to the claim of the creditor thereon; and in either case the assignee and creditor, respectively, shall execute all deeds and writings necessary or proper to consummate the transactions. If the property is not sold or released, and delivered up, the creditor shall not be allowed to prove any part of his debt.

The writ shall be made returnable not later than [30] 90 days after the date of issuance, and shall direct the commission to certify its record in the case to the court. On the return day, the cause shall be heard by the [Supreme Court] court, unless for a good reason shown it is continued.

SEC. 2. Section 1757 of said code is amended to read:

1757. No new or additional evidence may be introduced in the [Supreme Court] court, but the cause shall be heard on the record of the commission as certified to by it. The review shall not be extended further than to determine whether the commission has [regularly pursued its authority] *proceeded without, or in excess of jurisdiction*, including a determination of whether the order or decision under review violates any right of the petitioner under the Constitution of the United States or of this State, *and whether there was any prejudicial abuse of discretion as defined in Section 1094.5 of the Code of Civil Procedure*. The findings and conclusions of the commission on questions of fact shall be final and shall not be subject to review except as provided in this article. Such questions of fact shall include ultimate facts [and] *but shall not include the findings and conclusions of the commission on reasonableness and discrimination*.

SEC. 3. Section 1758 of said code is amended to read:

1758. The commission and each party to the action or proceeding before the commission may appear in the review proceeding. Upon the hearing the [Supreme Court] court shall enter judgment either affirming or setting aside the order or decision of the commission. SEC. 4. Section 1759 of said code is amended to read:

1759. No court of this State, except the Supreme Court *and the district court of appeal* to the extent specified in this article, shall have jurisdiction to review, reverse, correct, or annul any order or decision of the commission or to suspend or delay the execution or operation thereof, or to enjoin, restrain, or interfere with the commission in the performance of its official duties, except that the writ of mandamus shall lie from the [Supreme Court] court to the commission in all proper cases.

SEC. 5. Section 1760 of said code is amended to read:

1760. In any proceeding wherein the validity of any order or decision is challenged on the ground that it violates any right of petitioner under the Constitution of the United States, the [Supreme Court] court shall exercise an independent judgment on the law and the facts, and the findings or conclusions of the commission material to the determination of the constitutional question shall not be final.

SEC. 6. Section 1761 of said code is amended to read:

1761. The pendency of a writ of review shall not of itself stay or suspend the operation of the order or decision of the commission, but during the pendency of the writ the [Supreme Court] court in the manner provided in this article in its discretion may stay or suspend in whole or in part the operation of the commission's order or decision.

SEC. 7. Section 1762 of said code is amended to read:

1762. Except as provided in this section, no order staying or suspending an order or decision of the commission shall be made by the [Supreme Court] court except upon five days' notice and after hearing. If the order or decision of the commission is stayed or suspended the order suspending it shall contain a specific finding based upon evidence submitted to the court and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner and specifying the nature of the damage, but the [Supreme Court] court may grant a temporary stay restraining the operation of the commission order or decision at any time before such hearing and determination of the application for a stay when, in its opinion irreparable loss or damage would result to petitioner unless such temporary stay is granted. Such temporary stay shall remain in force only until the hearing and determination of the application for a stay upon notice. The hearing of such application for a stay shall be given precedence and assigned for hearing at the earliest practicable day after the expiration of the notice.

SEC. 8. Section 1763 of said code is amended to read:

1763. No temporary stay shall be granted by the [Supreme Court] court unless it clearly appears from specific facts shown by the verified petition that immediate and irreparable injury, loss, or damage will result to the applicant before notice can be served and hearing had on a motion for a stay as provided in this article. Every such temporary stay shall be endorsed with the date and hour of issuance, shall be forthwith filed in the clerk's office and entered of record, shall define the injury and state why it appears to be irreparable and why the order was granted without notice, and shall by its terms expire within such time after entry not to exceed 10 days as the court may fix unless within the time so fixed the order is extended for a like period for good cause shown, and the reasons for such extension shall be entered of record. In case a temporary stay is granted without notice the matter of the issuance of a stay shall be set down for hearing at the earliest possible time, and when it comes up for hearing the party obtaining the temporary stay shall proceed with the application for a stay and if he does not do so the court shall dissolve the temporary stay.

SEC. 9. Section 1765 of said code is amended to read:

1765. In case the [Supreme Court] court stays any order or decision denying to the utility an increase in any rate of classification, the court may condition such stay or temporary stay so as to permit petitioner to charge a higher rate pending the determination of the review and may attach other reasonable conditions to such stay or temporary stay.

SEC. 10. Section 1766 of said code is amended to read:

1766. In case the [Supreme Court] court stays or suspends any order or decision lowering any rate or classification or stays any order or decision denying petitioner the right to charge an increased rate or classification and as a condition thereof permits the charging of higher rates, the court shall require the public utility affected to keep such accounts, verified by oath as may, in the judgment of the court, suffice to show the amounts being charged or received by such public utility, pending the review, in excess of the charges allowed by the order or decision of the commission, together with the names and addresses of the corporations or persons to whom overcharges will be refundable in case the order or decision of the commission is upheld. The court may from time to time require the petitioner to give additional security, or to increase the suspending bond, whenever in its opinion such action is necessary to insure the prompt payment of the damages and overcharges. If the final decision by the [Supreme Court] court upholds the commission's order or decision, all money which the public utility has collected pending the appeal in excess of that authorized by the order or decision of the commission, together with such interest as may be reasonable, shall be promptly paid to the corporations or persons entitled thereto in the manner prescribed by the court."

PROCEEDINGS UNDER CALL OF THE SENATE

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, April 16, 1957

*To the Honorable Members of the Senate
State of California
Sacramento, California*

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 264, entitled: "An act to add Section 668.1 to the Elections Code, relating to elections."

My objections to this bill are as follows:

This bill relates to the giving of notice by the county clerk or registrar of voters to the county central committees of the appointments to the precinct election boards. It would place an undue burden on the county clerks and registrars of voters in requiring them to give such notice of substitute appointments to these boards

between the date of the publication of the original appointments and the day of the election. In view of this, the author has requested that I veto the bill and he will make the change needed in this regard in another bill.

Accordingly, I am returning this bill to the house in which it originated without my signature and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Senate Bill No. 264 ordered placed on the Unfinished Business File.

O God, Heavenly Father, we call upon Thee this day, mindful of our weakness. Instruct us in accordance with Thy Will. Teach us what we are to do and show us what we must accomplish in order to please Thee. Let no ignorance of our duties draw us into devious ways; nor partiality sway our minds. May we in all things hold fast to justice, tempered with mercy, so that our judgment may in no wise be at variance with Thee. Help each of us to bear one another's burdens, forgive one another's faults, and show charity and kindness to all our fellow-men. Grant that we may persevere in our respective tasks with an inviolable fidelity to the very end and thus please Thee, O Lord. May our citizens, who have put their trust in us, never have any cause to feel that we have not done our best for each one of them. AMEN.

CHAPTER 13. SAN FRANCISCO PORT BOND LAW OF 1958

3375. This chapter may be cited as the "San Francisco Port Bond Law of 1958."

3376. As used in this chapter the following words shall have the following meanings:

(a) "Committee" means the San Francisco Harbor Bond Finance Board, created by Section 3302.

(b) "Board" means the Board of State Harbor Commissioners for San Francisco Harbor, as the same is constituted by Part 1 of Division 6 of the Harbors and Navigation Code, or any successor thereof.

(c) "Fund" means the Fifth San Francisco Seawall Fund, which fund is hereby created in the State Treasury.

(d) "San Francisco Harbor Improvement Fund" means the fund now existing in the State Treasury and created by Section 1706.

(e) "Available moneys" in the San Francisco Harbor Improvement Fund means any moneys in the San Francisco Harbor Improvement Fund other than the amounts required by law to be otherwise applied to some special or particular purpose.

3377. For the purpose of creating a fund herein called the Fifth San Francisco Seawall Fund to provide for the improvement of San Francisco Harbor and its facilities, including wharves, piers, seawalls, railroads, spurs, streets, and appurtenances to any of the foregoing, and personal or real property used in connection therewith, and any necessary dredging and filling in connection therewith by the board and to redeem bonds authorized prior to the enactment of this chapter and outstanding, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the

aggregate amount of fifty million dollars (\$50,000,000) in the manner and to the extent provided herein or otherwise provided by law. The authorization to issue bonds as herein set forth shall be a continuing authorization until all of said bonds shall have been issued and sold, provided that no bonds shall be issued or sold pursuant to this chapter subsequent to July 1, 1999.

3378. The board is hereby authorized and empowered to make improvements or purchases specified in Section 3377 and to expend from the Fifth San Francisco Seawall Fund created by this chapter, in the manner authorized by law, any and all funds therein, derived from the sale of bonds as provided in this chapter.

3379. Whenever the board determines by resolution that a bond issue under this chapter is necessary or desirable in order to make any of the expenditures authorized by this chapter, and so certifies to the committee, then the said committee shall approve or disapprove said resolution, and if it approves said resolution, the committee shall adopt a resolution authorizing and directing the State Treasurer to arrange for the preparation of the requisite number of suitable bonds and shall specify as to such bonds then to be sold:

(a) The aggregate number, aggregate par value, denominations and the date of the bonds to be then sold. The bonds may be issued in series or divisions of the total authorized issue. Such denominations shall be in the sum of one thousand dollars (\$1,000), or multiples thereof. The date appearing on the bonds or series or division shall be deemed to be the date of issuance of such series or division for all purposes of this chapter, irrespective of the actual date of delivery of such bonds of such series or division and the payment of the purchase price thereof.

(b) The dates of maturity, and the amount and numerical sequence of the bonds maturing at each date of maturity, which amounts need not be equal, but which dates shall be at annual or semiannual intervals, and the first of which dates of maturity shall be not more than five years, and the last of which dates of maturity shall be not more than 50 years, after the date of the bonds or any series or division thereof.

(c) Whether or not the bonds are to be subject to redemption at the option of the board prior to maturity, and, if so, the provisions for such redemption, the manner of the call thereof, and the price or prices at which the bonds shall be subject to redemption.

(d) The annual rate, or rates, of interest which the bonds to be issued shall bear, which rate, or rates, at the discretion of the committee, may be determined by the bidder at the time of sale of said bonds, not to exceed 6 percent per annum. Such interest may be payable at such periods as may be fixed by the committee.

(e) The technical form and language of the bonds and interest coupons.

(f) Whether or not the right is reserved to make delivery in the form of temporary or interim bonds, certificates, or receipts, exchangeable for definitive bonds when executed and available for delivery, and if such right is reserved the denominations and form of such temporary securities.

(g) Whether or not the bonds are to be subject to registration, the denominations of registered bonds and the provisions, if any, for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations and the form and all of the terms and conditions of such registration and of such exchange. If such registration is provided for, all of the provisions of this chapter with reference to the payment of bonds and interest coupons shall be subject to the terms and conditions of such registration with respect to the payment of registered bonds and the interest thereon.

(h) All other terms and conditions of the bonds and of the execution, issuance and sale thereof, which shall be consistent with all of the provisions of this chapter.

(i) The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

3380. All bonds issued under this chapter shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer by facsimile signature and the bonds shall be signed, countersigned and endorsed by the officers who shall be in office on the date of the adoption of the resolution of the committee, and each of the bonds shall bear a facsimile of the Great Seal of the State of California. The bonds so signed, countersigned, endorsed and sealed, when sold and delivered, shall be and constitute a valid and binding obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned and endorsed the bonds, or any or either of such officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing such bonds. Each bond issued under this chapter shall contain a clause or clauses stating that interest shall cease to accrue thereon from and after the date of maturity thereof, and referring to the resolution of the San Francisco Harbor Bond Finance Board, by virtue of which the bond is issued.

3381. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from any available moneys in the San Francisco Harbor Improvement Fund, or if such moneys are insufficient, then from the General Fund of the State of California, such sum annually as will be necessary to pay the principal of and interest on the bonds issued and sold pursuant to the provisions of this chapter, as such principal and interest become due and payable. Any sums withdrawn from the General Fund for the payment of principal of or interest on the bonds shall be returned to the General Fund as soon as moneys are available for that purpose in the San Francisco Harbor Improvement Fund, together with interest thereon at the same rate as, at the time of appropriation, is earned by short term current investments through the pooled money investment account, such earnings to be determined by the Controller.

The board shall collect in the same manner and at the same time as other harbor revenue is collected, such sum, in addition to the ordinary revenues of the harbor, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenues, to do and perform each and every act which shall be necessary to collect such additional sum.

3382. In determining the dates of maturity of the bonds, and the amount thereof to mature at each date of maturity, the committee shall be guided, so far as it may deem to be practicable, by the amounts of the revenue estimated to accrue to the San Francisco Harbor Improvement Fund. The committee shall fix and determine the dates and amounts of such maturities in such manner that, together with the dates and amounts of interest payments on the bonds, they shall coincide, as nearly as it may deem to be practicable, with the dates and amounts of such estimated revenue.

3383. The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue, series or division and shall be the rate or rates fixed and determined by the committee in a resolution adopted prior to the sale of the bonds or as specified in the bid accepted by the State Treasurer if the bonds are sold on the basis of the bidder naming the interest rate or rates, in which event the State Treasurer shall fix such rate or rates in conformity with the bid of the successful bidder.

3384. Both principal of and interest on the bonds shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized fiscal agent of the State.

3385. Each bond shall contain a reference to this act, and if subject to call or redemption prior to maturity, a recital to that effect.

3386. The bonds authorized to be issued under this article shall be sold by the State Treasurer to the highest bidder for cash, either at public auction or upon sealed bids as the committee may by resolution determine. Highest bidder shall be the bidder whose bid will result in the lowest net interest cost on account of said bonds. If the State Treasurer determines that the bids received are not satisfactory as to price or responsibility of the bidders, the State Treasurer may reject all bids received. The Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If the bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for one half of one percent (0.5%) of the par value of the bonds so offered for sale, but not exceeding one hundred thousand dollars (\$100,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Fifth San Francisco Seawall Fund and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to the bonds or by reason of such bid, or to the recovery of the deposit accompanying the bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and

available for delivery. Signature of the State Treasurer may be by facsimile or signature stamp.

3387. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable. The proceeds of the sale of such bonds, other than such amount as may have been paid as premium or accrued interest thereon, shall be forthwith paid over by the State Treasurer into the Fund to be used exclusively for the purposes set forth in this chapter; provided, that the proceeds from the sale of the bonds may be used to pay the expense created by the issuance and sale thereof. Any premium and accrued interest received on the sale of the bonds shall be deposited in the Fifth San Francisco Seawall Sinking Fund.

3388. The board is authorized with the approval of the Department of Finance, to invest any surplus moneys in the fund in bonds or other obligations of the United States, or of the several counties, municipalities, school districts, or other public agencies of the State of California, and to sell such bonds or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance; or the board may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars (\$500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4 (commencing at Section 16500), Part 2, Division 4, Title 2 of the Government Code, of money of any of the funds subject to the control of the board or appropriated for their use.

Interest accruing upon the deposit of money of the fund shall be paid into and credited to the San Francisco Harbor Improvement Fund.

3389. The board, subject to the approval of the San Francisco Harbor Bond Finance Board, may provide for the issuance, sale or exchange of refunding bonds out of the bonds issued under this chapter for the purpose of redeeming or retiring any bond issued by the board if, under the terms of that issue, the bonds issued thereunder may be redeemed or retired. Any bonds issued hereunder may be redeemed or retired if the resolution under which the bonds are issued so permits.

3390. For the payment of the principal and interest of the bonds a sinking fund, to be known and designated as the "Fifth San Francisco Seawall Sinking Fund," shall be, and the same is hereby created in the State Treasury, as follows: The State Treasurer, at the end of five years from the date of issuance of each issue of bonds of any series or division provided for in this chapter, shall, on the first day of the month and on the first day of each month thereafter, until date of maturity of the issue of bonds, take from any available moneys in the San Francisco Harbor Improvement Fund, such sum as multiplied by the total number of months, less 60, between the date of issuance and date of maturity of such bonds, will equal the principal of all the bonds of such issue; and he shall place the sum in the "Fifth San Francisco Seawall Sinking Fund." The State Treasurer shall on Controller's warrants duly drawn for that purpose, invest the moneys in the sinking fund in the purchase of the bonds of the United States, or of the State of California, including any bonds authorized, issued and theretofore sold under authority of this chapter or of the several counties, municipalities, school districts, or other public agencies of the State of California, which bonds shall be kept in a proper receptacle, appropriately labeled; but he shall always keep on hand a sufficient amount of money in the sinking fund with which to pay the principal and interest on such of the state bonds herein provided to be issued as may have theretofore been sold. The State Treasurer may only purchase such bonds authorized and issued under authority of this chapter with moneys in the sinking fund as have been theretofore sold. To provide means for the payment of interest on the bonds that may be sold and outstanding, the Treasurer shall monthly take from the San Francisco Harbor Improvement Fund, and pay into the Fifth San Francisco Seawall Sinking Fund, an amount equal to one month's interest upon all bonds then sold, delivered, and outstanding.

Interest accruing upon investment made from moneys in the Fifth San Francisco Seawall Sinking Fund shall be deposited in the Fifth San Francisco Seawall Sinking Fund unless otherwise required under any resolution providing for the issuance of revenue bonds to be credited to the San Francisco Harbor Improvement Fund.

3391. Whenever the committee deems that it will increase the salability or the price of the bonds to obtain, prior to or after sale, a legal opinion, other than that of the Attorney General, as to the validity of the bonds, the committee may authorize the State Treasurer or the Department of Finance, or both, to obtain such a legal opinion. Payment for such legal services shall be made from the proceeds of the sale of the bonds, or any other funds available to the Board of State Harbor Commissioners.

3392. The State Treasurer directly or through a state fiscal agent, or agents, shall, on the respective dates of maturity of all bonds, or on the date fixed for the prior redemption of any thereof which may be duly called for redemption, and on the respective due dates of all coupons pertaining to any of said bonds, other than coupons canceled because of the redemption of any of said bonds prior to maturity, or as soon thereafter as said bonds or coupons respectively are surrendered to him, or to such state fiscal agent, or agents, pay the same.

3393. Upon the payment of any such bond or coupon, the State Treasurer, or such state fiscal agent, or agents, shall perforate the same with a suitable device in a manner to indicate such payment and a record of such payment shall be made thereof. The State Treasurer, or such state fiscal agent, or agents, shall also on the respective dates of maturity of any such bonds which have been executed but which remain unsold, cancel the same by perforation with a suitable device in a manner to indicate such cancellation and the date thereof, and on the respective due dates of all coupons attached to any such bond remaining unsold, shall detach all such coupons the due date of which has been reached, and cancel them in the same manner as provided for the cancellation of bonds remaining unsold. After proceedings set forth in Section 3379 new bonds conforming to the directions of the committee may be prepared and executed in lieu of any bonds so cancelled, and may be sold and issued in the same manner as provided for other bonds in this chapter.

3394. The State Treasurer, or such state fiscal agent, or agents, with the approval of the State Treasurer, may destroy or cremate any or all bonds and any or all coupons pertaining thereto which have been previously paid or canceled as provided herein in accordance with the provisions of Government Code Section 16772.

3395. It shall be the duty of the State Treasurer to pay the interest of said bonds, when the same falls due, out of the sinking fund provided for in this act, on Controller's warrants duly drawn for that purpose.

3396. All bonds issued under this chapter and sold shall be deemed to have been called in at their respective dates of maturity and the State Treasurer shall, on the respective dates of maturity of said bonds, or as soon thereafter as said matured bonds are surrendered to him, pay the same upon Controller's warrants duly drawn for that purpose. The provisions of this section shall be applicable also to the interest coupons pertaining to the bonds authorized by this chapter to be issued. All money remaining in the Fifth San Francisco Seawall Sinking Fund, after the principal of and interest upon all bonds issued under the provisions of this chapter have been paid in full and after all such bonds and the interest coupons therefrom have all been canceled, shall be paid into the San Francisco Harbor Improvement Fund to be expended in accordance with law.

3397. Whenever the board shall determine that any bonds then outstanding, and which by their terms are subject to redemption prior to maturity, should be redeemed, and that money sufficient for such redemption will be available at the time proposed for such redemption, it may, by resolution approved by the committee, direct the State Treasurer to call and redeem any such bonds, at a time specified in such resolution, and the State Treasurer shall thereupon give notice of such proposed redemption and redeem the bonds in accordance with the provisions for redemption provided for in the resolution of the board adopted under Section 3379 pursuant to which the bonds were issued.

3398. The State Controller and the State Treasurer shall keep full and particular account and record of all their proceedings under this chapter, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this chapter shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, April 11, 1957

Hon. James A. Cobby
Senate Chamber

Poultry—No. 10366

DEAR SENATOR COBEY:

Question No. 1

You have asked for our opinion as to the constitutionality of a provision which would exempt the following described classes from regulation by the state in regard to poultry plant sanitation, poultry meat inspection for wholesomeness, and poultry meat classification:

“(c) Poultry meat derived from poultry which is slaughtered on the premises where produced and which poultry meat (1) is sold by the producer thereof at retail on such premises, or (2) is sold at retail by the producer thereof off of such premises, either direct to consumers at their homes or at a retail stand operated by such producer in a farmers’ market, or (3) is sold by the producer thereof, on or off the premises where produced, to retail stores or public eating houses. As used in this subdivision, “producer” includes only individual producers who do not employ, except in unforeseeable exigencies, any person other than members of their immediate families.

(d) Poultry meat derived from poultry which is slaughtered, dressed, and sold for purposes other than resale on the premises where produced, when the entire poultry meat output of the producer of such poultry is so sold.”

Opinion No. 1

In our opinion, because of the presumptions which favor the validity of legislative classifications, the classifications under consideration here would be held by the courts to be constitutional.

Analysis No. 1

Senate Bills 1582, 2226, and 2227, as amended in Senate April 8, 1957, would amend Sections 1116, 375.6, and 377.6 of the Agricultural Code, respectively, to provide that subdivisions (c) and (d) of those sections read substantially as quoted above. The effect of the proposed subdivision (c) would be generally the same as such subdivision as it presently appears in those sections of the Agricultural Code, except that sales on the premises to retail stores or public eating houses would be permitted and the provision concerning permissible employment would be more restrictive. Subdivision (d) would be new matter.

It would appear that the only objection to the suggested amendments is that, in creating the specific exemption under consideration, the Legislature has made an invalid classification—a classification in violation of the due process of law and equal protection of the laws requirements of the Federal Constitution (14th Amdt. U. S. Const.), the due process of law provision of the State Constitution (Art. I, Sec. 13, Calif. Const.), and other provisions of the State Constitution which require uniformity in legislation (Calif. Const.: Art. I, Sec. 11; Art. I, Sec. 21; Art. IV, Sec. 25).

The Legislature, however, is not prohibited from making reasonable classifications in a regulatory statute so long as the classification is based upon some difference in the classes having a substantial relation to a legitimate object to be accomplished. Further, all presumptions favor the legislative classification, which cannot be overturned unless plainly arbitrary (*Los Angeles v. Hurlbut*, 44 Cal. App. 2d 88). Moreover, when the classification made by the Legislature is questioned, if any state of facts reasonably can be conceived that would sustain it, the existence of that state of facts is presumed, and one who assails the classification must carry the burden of showing that it is arbitrary (*Leland v. Lowrey*, 26 Cal. 2d 224).

We are not aware of the factual situation which gives rise to the classification sought to be made here. However, by subdivision (c), "all-one-family" poultry operations are to be considered apart from poultry operations generally. By subdivision (d), the producer who markets his poultry outside of the usual wholesale or retail channels, is to be classified separately from other producers. We believe, in view of the principles set forth above, that the courts would sustain such classifications.

Question No. 2

You have asked our opinion as to the effect of the severability clause which appears as the last section of each of Senate Bills 1582, 2226, and 2227.

Opinion No. 2

In our opinion, such a clause will not be considered an inexorable command, since the question of severability of an invalid part is a judicial question, but would be considered by the courts as a declaration of intention on the part of the Legislature that a separable invalid portion of the act should not destroy the whole.

Analysis No. 2

The severability clause under consideration here reads as follows:

"If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable."

Even in the absence of such a clause, unconstitutional parts of a statute may be severed and the remainder given effect by the courts, so long as the invalid part is not so vital as to require destruction of the whole. Whether a part of a statute will be eliminated while another part is upheld is primarily a question of legislative intent and is one to be determined by the courts.

A severability clause, therefore, is merely an aid to the court in finding legislative intent, and can be taken as a declaration of such intent on the part of the legislature that, insofar as lies within its power, a severable invalid portion of an act should not destroy the whole. (*Bacon Service Corporation v. Huss*, 199 Cal. 21).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By ALEX. B. YAKUTIS, Deputy

Sec. 9.22. The published notice of sale shall describe the bonds and set forth the terms and conditions of sale, including the following:

(a) It shall state that sealed proposals for the bonds to be sold will be received, opened publicly at the time and place stated in the notice of sale, and not before, and shall be publicly announced.

(b) It shall invite bidders to name the rate or rates of interest to be borne by the bonds, which rate or rates shall be stated in multiples of one-eighth or one-tenth of 1 per centum, but in no event exceed 6 per centum per annum, payable as provided in the notice of sale. Bidders may be permitted to bid different rates of interest and to split rates irrespective of the maturities of said bonds, within such limitations as the notice of sale may provide.

(c) It shall state that the bonds will not be sold for less than the par value of such bonds, and accrued interest at the stated rate or rates thereon to date of payment of the purchase price.

(d) It shall state that the bonds will be awarded to the highest responsible bidder or bidders considering the interest rate or rates specified and the premium offered, if any. The highest bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the district would be required to pay from the date of said bonds to the respective maturity dates thereof at the coupon rate or rates specified in the bid and the award will be made on the basis of the lowest net interest cost to the district. The lowest net interest cost shall be computed on a 360-day year basis.

(e) It shall require all bidders to deposit a certified or cashier's check, drawn on a bank or trust company transacting business in the State of California, payable to the order of the authority treasurer, in an amount up to, but not exceeding, 2 per centum of the par value of the bonds proposed to be sold, to partially secure the authority from any loss resulting from the failure of the bidder to comply with the term of his bid. The specific amount of the good faith deposit required of all bidders will be stated in the notice of sale. The good faith deposits of unsuccessful bidders will be returned by mail or personal delivery at the time of making the award to the successful bidder. No interest will be paid upon deposit made by the successful bidder.

Sec. 9.23. The published notice of sale shall also include the following:

(a) It shall state that the authority shall reject any and all bids which do not comply with the terms of the notice. Any bidder whose bid has been rejected by reason of any irregularity or informality or other defect in the bid shall be disqualified from purchasing the bonds offered pursuant to the notice of sale at any subsequent private sale of the same bonds.

(b) It shall state that if no bids are received, or if the highest bid received is not satisfactory as to price, the authority may reject all bids received, if any, and either readvertise or sell the bonds at private sale. However, if the bonds are to be sold at private sale, they may not be sold at a price lower than the highest bid received at public sale. Bidders whose bids have been rejected at public sale because of irregularity or informality in their bids will not be permitted to bid at private sale.

(c) It shall state that the authority will take action awarding the bonds or rejecting all bids not later than 24 hours after expiration of the time prescribed in the notice for receipt of proposals; provided, that the award may be made after the expiration of the specified time, if the bidder shall not have given the authority notice in writing of the withdrawal of such proposal.

(d) It shall state that delivery of bonds will be made to the successful bidder at a designated office as soon as the bonds can be prepared (but not prior to the date of the bonds). The authority may also provide for delivery of bonds at such place or places, anywhere in the United States, as may be specified in the notice of sale and for receipt and transmittal of purchase price in cash or bank credits in the form of certified Federal Reserve Bank funds. The cost of printing, engraving, or lithographing the bonds will be borne by the authority.

(e) It shall provide that the successful bidder shall have the right, at his option, to cancel the contract of purchase if the bonds are not tendered for delivery within 60 days from the date of sale thereof, and in such event the successful bidder shall be entitled to the return of the deposit accompanying his bid.

(f) It shall provide that if prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any federal income tax laws, either by the term of such laws or by ruling of a federal income tax authority or official, which is followed by the Internal Revenue Service or by decision of any federal court, the successful bidder may at his option prior to the tender of the bonds by the authority, be relieved of his obligation under the contract to purchase the bonds and in such case the deposit accompanying his bid shall be returned.

(g) It shall state that there is no controversy or litigation pending or threatened concerning the validity of the bonds to be sold, the corporate existence of the authority, or the title of the officers to their respective offices, and the authority will deliver to the successful bidder a no-litigation certificate certifying to the foregoing as of and at the same time of delivery of the bonds.

(h) It shall state that a legal opinion from a nationally recognized firm of municipal bond attorneys, approving the validity of bonds in all respects, will be furnished to the successful bidder without charge.

SEC. 9.24. The authority may provide for the funding or refunding of outstanding general obligation indebtedness pursuant to this article, if any of the following conditions exist:

(a) The authority has indebtedness evidenced by bonds, notes, or other evidences of indebtedness, which according to their terms are subject to call or payment before maturity.

O God, who didst will that Thy Son should undergo on this day, the torture of the Cross for our sakes, that He might be an example to us; may we also, in following Him, take up our work with zeal and endure the suffering and toil that comes with it so that we may thereby do good for our State and lead our fellowman onward towards the better things of life—and enjoy a mutual peace and happiness which comes to those who love and labor after Thy gracious example. MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 19, 1957

To the Honorable Members of the Senate

State of California

Sacramento, California

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 133, entitled: "An act to validate the organization, boundaries, acts, proceedings and bonds of public bodies, as herein defined, declaring the urgency of this act, to take effect immediately."

My objections to this bill are as follows:

The Legislature passed and presented to me this Senate Bill No. 133 and Assembly Bill No. 2280. These bills are general validating acts and have similar provisions, except that Assembly Bill No. 2280 is broader and validates the acts of additional "public bodies" and also has certain other desirable technical differences from Senate Bill No. 133. In order to avoid unnecessary duplication and the confusion and problems which would result if both bills were signed, it is evident that only one of these bills should receive my signature and the other should be returned without my signature. After consultation with the authors of these bills, I have signed Assembly Bill No. 2280 and that bill has become a law and, accordingly, I am returning this Senate Bill No. 133 to the house in which it originated without my signature and with this statement of my objections thereto.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Message read, and ordered printed in the Journal.

Senate Bill No. 133 ordered placed on the Unfinished Business File.

A new zone comprising or including all or any part of an original zone which has been terminated pursuant to the provisions of this section, shall not be established if protests are filed with the clerk of the board, at least fifteen (15) days prior to the date set for hearing thereon, which protests have been adopted by a majority vote of the governing bodies of cities or of public districts formed for the purpose of supplying water, within which cities or public districts or both, there is taxable real property situated within the proposed zone as described in the notice of hearing, having an assessed value equal to not less than 35 percent of the assessed value of all of the taxable real property within the proposed zone as described in said notice of hearing, as shown on the last equalized assessment roll.

PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

Look down upon us, O Lord, we pray Thee, and bless us and our work on this, the beginning of another week. Guide rightly our actions that we, in our own uncertain human wisdom, may know Thy will and do it. We place before Thee our work. May it be brought by Thee out of the darkness of indecision to the realization of what is best for our State and our people. Give to us a beneficent outlook on life with its problems. Make us, we beseech Thee, more fitting examples of that leadership so necessary in our day and age—that we may become examples of honesty, propriety and justice to our fellow man. Take away from us, we beseech Thee, the danger of too great reliance upon ourselves and teach us to rely upon Thy grace and wisdom. Into Thy hands and under Thy guidance alone, O Lord, can we find that rest and peace so necessary for the progress of both our national and civic life. AMEN.

The director shall administer and enforce the provisions of this chapter, and may exercise any of the administrative powers conferred by Sections 11180 to 11191, inclusive, of the Government Code upon a head of a department. In order to effectuate the declared purposes of this chapter, the director may contract and be contracted with to carry out the declared intent and purposes of this chapter.

5076. There is hereby established the California Beef Council which consists of 19 members and 19 alternates, all of whom shall be citizens and residents of this State and producers.

The director shall appoint to the council producers nominated as hereinafter provided for, giving due regard to proper and equitable representation of all segments of the industry and to geographic distribution.

5077. The terms of office of the members and alternates of the council shall be three years, except as provided in this section. The first appointments made under this chapter shall be so made that the terms of six members and their alternates shall expire at the end of one year, six members and their alternates shall expire at the end of two years, and seven members and their alternates shall expire at the end of three years. The director, whenever he deems necessary, shall obtain additional nominations for membership on the council from producers.

Any vacancy occurring during the unexpired term shall be filled by the director for the unexpired term from the eligible nominees. No council member or alternate shall serve more than two consecutive three-year terms except that service as an alternate does not disqualify a person to then serve two such terms as a member.

The director may remove any member of the council or alternate for cause and upon such removal there shall be a vacancy which shall be filled in the manner as provided for the unexpired term.

5078. Within 30 days after the effective date of this section, the director shall call and hold meetings of producers engaged in business as such in this State, at such places in the State as he shall determine will give a reasonable opportunity to every such producer to attend one of such meetings, for the purpose of receiving from them nominations for membership on the council. Every producer shall be entitled to nominate a nominee for membership on the council. Both members and their alternates shall be appointed from those persons nominated for membership on the council. Notice of each of such meetings shall be given by the director by publishing notice thereof in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers or by such other means as the director shall determine to be necessary to give reasonable notice of such meeting to producers in the general area in this State wherein such meeting is to be held. Such notice of meeting shall set forth the time, place, and purpose thereof, and shall state that nomination by mail to the director at his office in Sacramento, setting forth the names, addresses, citizenships, and types of producers of the respective nominees, and bearing the signature and address of the nominator, if received by the director not later than five days subsequent to such meetings, will be considered. Such meeting shall not be held prior to three days after the last publication of notice thereof. At each meeting the director shall receive from those present and qualified oral nominations for membership on the council.

5079. A majority of the members of the council shall constitute a quorum for the transaction of all business, including the election of officers.

Immediately upon the appointment and qualification of the council, the council shall meet at a time and place designated by the director as temporary chairman and shall organize. The council shall select annually from its number, to serve at its pleasure, a chairman and vice chairman who, together with five other members selected annually by the council, shall constitute the executive committee of the council. The executive committee shall have and exercise such powers of the council as the council may delegate to it.

5080. The council shall have two regular meetings in each year at times and places fixed by the council. The times for regular meetings shall be fixed so that there shall be an interval of at least four calendar months between such meetings. The council may meet in special meetings at any time and place at the call of the chairman or upon the written request of five members of the council. The executive committee shall have four regular meetings each year at times and places fixed by it, and may meet in special meetings at any time and place at the call of the chairman or on call of a majority of the members of the executive committee.

5081. The appointed members of the council shall receive ten dollars (\$10) per day for each day spent in actual attendance at the meetings or on the business of the council and shall be reimbursed for necessary traveling and other expenses incurred in the performance of their official duties.

5082. No member of the council, other than a member of the executive committee, shall receive compensation for more than 10 days' service per year. No member of the executive committee shall receive compensation for more than three days' service per month, except the chairman who may receive compensation for not more than 10 days per month.

5083. The director may require any employee or agent of the council to give a fidelity bond executed by a surety company authorized to do business in this State in favor of the director, in such sum, and containing such terms and conditions, as the director may prescribe. The cost of all fidelity bonds of employees or agents of the council under the provisions of this chapter shall be paid from the funds collected under this chapter.

5084. The members of the council duly appointed by the director, including employees of such council, shall not be held responsible individually in any way whatsoever to any person for liability on any contract or agreement of the council, or for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, servant, or employee, except for their own individual acts

of dishonesty or crime. The liability of the members of the council shall be several and not joint and no member shall be liable for the default of any other member. All salaries, expenses, costs, obligations and liabilities incurred by such council shall be payable only from funds collected under the provisions of this chapter.

5085. An alternate member of the council shall sit as a regular member of the council in case the member for whom he is an alternate fails for any reason to attend any meeting of the council. He shall be compensated and reimbursed in the same manner and to the same extent as a regular member when so serving and when so serving has all the powers, duties, liabilities, and immunities of the member in whose place he is serving, except that the alternate to the chairman or vice chairman shall not succeed to the functions of these offices.

Article 5. Powers and Duties

5100. The duties of the council shall be advisory, except as to those duties which may be delegated to it by the director, and may include the following:

(a) To recommend to the director administrative rules and regulations relating to the administration and enforcement of this chapter;

(b) To investigate all matters affecting the administration of this chapter, and to report violations thereof to the director;

(c) To employ and, at its pleasure, discharge a manager and such clerical help and other employees as it deems necessary, and to prescribe their duties and powers and fix their compensation;

(d) To contract with, or employ, and, at its pleasure, discharge such other persons as it deems necessary, and in the cases of such of them as it shall employ, to outline their powers and duties and fix their compensation;

(e) To establish offices, and incur expenses incidental thereto;

(f) To make such contracts and other agreements as may be proper to promote the sale of beef and beef products on either a local, state, national or international basis;

(g) To cooperate with any other local, state, or national commission, organization, or agency, whether voluntary or created by state or federal law, and engaged in work or activities similar to the work and activities of the council created by this chapter, and recommend to the director the making of contracts and agreements with such organizations or agencies for carrying on joint programs of education, research, publicity and advertising; provided, however, that in matters of research, the council shall cooperate with organizations of recognized professional standing which are adequately equipped with facilities for the research contemplated;

(h) To recommend to the director the institution and promotion of scientific research to develop or discover, or both, the health, food, therapeutic, dietetic, industrial, or other uses of beef and its products.

The exercise of the foregoing powers of the council shall in all instances be subject to the approval of the director.

5101. The director shall conduct, or may cause the council to conduct, programs of education, research, or public information, designed to accomplish the following purposes, among others:

To increase the consumption of beef and beef products; to gather, publicize, and diffuse and accurate and scientific information showing the importance of the use and consumption of beef and beef products in relation to the public health, economy, and diet, and proper nutrition of children and adults; to study means and methods employed in producing, processing, manufacturing, marketing, and distributing beef and beef products in order to comply with the sanitary and other regulations imposed by municipalities, State and Nation; to gather and disseminate information regarding the high standards observed and imposed to insure pure and wholesome beef and beef products and the harmful effects on the public health resulting from the breakdown or instability of the cattle industry, the factors and conditions peculiar to the cattle industry which tend to cause an unbalanced production, the price of beef and beef products in relation to the cost of other items of food in a balanced diet, and the factors which tend to promote increased consumption of beef and beef products, stabilize the industry, and foster a better understanding and more efficient cooperation among producers and the consuming public.

5102. No program or activity conducted or sponsored under this chapter shall make false or unwarranted claims, or disparage the quality, value, use, or sale of any commodity authorized by law to be marketed in this State, nor shall any such program be conducted with reference to a brand or trade name.

5103. The council shall keep such books, records, and accounts of all its transactions, dealings, contracts, agreements, funds, and expenditures as it deems necessary, which books, records, and accounts shall at all times be open to inspection and audit by the director.

5104. No member, alternate agent, or employee of the council shall appear before any legislative committee of the State or Federal Government as a representative of the council unless requested to do so by such committee, nor shall such person lobby in any manner as a representative of the council, nor shall any funds collected pursuant to this chapter be used for political contributions.

5105. The council shall prepare, annually, and make available to all producers who so request, summarized statements of the activities in which it has been engaged in the previous annual period, and of the activities in which it proposes to engage in the ensuing annual period.

5106. Upon recommendations by the council the director may establish consistent with this chapter such rules and regulations covering the administration and enforcement of this chapter as may be necessary to carry out the purposes and attain the objectives of this chapter. Upon the issuance of any rules and regulations affecting this chapter, a copy thereof shall be posted on a bulletin board to be maintained by the director in his office, and a copy of such rules and regulations shall be published in a newspaper of general circulation published in Sacramento, California, and in such other newspaper or newspapers as the director may prescribe. No rule or regulation shall become effective until the termination of a period of five days from the date of such posting and publication. The director shall mail a copy of the notice of said issuance to all persons directly affected by the rules and regulations whose names and addresses may be on file in the office of the director and to every person who files in the office of the director a written request for such notice.

Article 6. Financial Provisions

5125. In order to carry out the programs and administer the activities conducted pursuant to this chapter, a fee of ten cents (\$0.10) per head on cattle and calves shall be charged and collected at the same time and in the same manner as inspection fees are collected as provided in Article 10 (commencing at Section 353) of Chapter 2 of Division 3 of the Agricultural Code, except that such fee shall not be charged upon the following:

- (a) Hides or skins;
- (b) Any cattle transported for purposes other than for sale or slaughter and without a change of ownership;
- (c) Any animal less than three months of age;
- (d) Any animal sold for milk or calf production.

Such fees shall not be charged or collected more than once from each owner upon the same animal.

It is the purpose of this section that a fee be paid for each head of cattle originating in other states and slaughtered in this State, other than those specifically excepted herein, and if not otherwise paid shall be collected from the purchaser or slaughterer.

Whenever the fee imposed by this section is not paid, the director may recover the amount thereof in a civil action from the person for whom the inspection was made. Civil suits and the fees collected thereby shall not be affected by claims of exemption made after the fee became due under this section.

5126. The fees collected herein shall be forwarded to the director at the same time and in the same manner as the inspection fees provided for in Article 10 (commencing at Section 353) of Chapter 2 of Division 3. The director shall reimburse, from any moneys collected hereunder, the Bureau of Livestock Identification and any other bureaus or agencies of the State for any additional expenses incurred by them in the administration or enforcement of this chapter.

5127. Any person who is subject to the fee required by Section 5125 may file in writing with the director a request for exemption from such fee. Upon the receipt of such request an exemption certificate shall be issued to the person so requesting, which certificate shall then be effective for the fiscal year in which issued and shall expire on June 30th next following the date of issuance.

At the time the fee required by Section 5125 is to be collected the person subject to payment may present the exemption certificate or such evidence thereof as the director may prescribe, and upon such presentation the fee otherwise required shall not be collected.

5128. All moneys collected by the director pursuant to this chapter shall be deposited in a bank or banks, or other depository, approved by the Director of Finance, allocated to the purposes of this chapter only, and disbursed by the director only for the necessary expenses incurred by the council and the director in carrying out the purposes and provisions of this chapter. Moneys so collected shall be deposited and disbursed in conformity with appropriate auditing rules and regulations prescribed by the director. The expenditure of such moneys shall be exempt from the provisions of Sections 16003 and 16304 of the Government Code. All such expenditures by the council and the director shall be audited at least once every two years by the Department of Finance and a copy of such audit shall be delivered within 30 days after completion thereof to the Governor, the Director of Agriculture, and the State Controller.

The director, after consultation with the council, shall prepare an annual budget setting forth in reasonable detail the proposed expenditures which he deems necessary for the performance by him and by the department of the duties imposed upon them by this chapter, and he shall prepare and submit to the council an annual statement, in reasonable detail, of his expenditures hereunder.

5129. The director may receive funds in such amounts as he may deem necessary to defray the initial expenses in making effective this chapter. The director shall

reimburse those persons from whom said funds are received in the amounts received from any funds received by the director pursuant to Section 5125.

5130. The director may accept contributions to advance the purposes of this chapter. If requested by the donor such contributions shall be segregated and separately maintained for the use of the council.

5131. Any inspector described in Section 331.8 may accept voluntary contributions on behalf of the director. Such contributions may be supplementary to or in lieu of collections provided in Section 5125.

The inspector shall give a receipt for such contributions and shall transmit them to the director in accordance with regulations which may be adopted by the director.

Article 7. Construction

5150. This chapter shall be liberally construed. If any section, sentence, clause, or part of this chapter is, for any reason, held to be unconstitutional or invalid, such decision shall not affect the remaining portion of this chapter but such unconstitutional or invalid provision shall be deemed separable from the valid parts thereof.

Article 8. Termination

5200. This chapter shall remain in force and effect until the ninety-first day after the final adjournment of the 1963 General Session of the Legislature.

5201. On the expiration of this chapter pursuant to Section 5200, the council shall remain in existence for the purpose of furnishing the director with a complete record of its outstanding financial obligations, accrued and to accrue. The director shall pay from the moneys deposited and disbursed as provided in Section 5128 such obligations and any obligations incurred by the director and the department under the terms and provisions of this section. Any moneys remaining shall be retained by the director to defray the expenses of formulation, issuance, administration or enforcement of any subsequent program for beef promotion. If no such program is undertaken within a period of three years from the date of termination of this chapter, such moneys shall be withdrawn from the approved depository and paid into the State Treasury, allocated to the Department of Agriculture Fund for use by the Director of Agriculture in carrying out the hide and brand provisions of the Agricultural Code, when appropriated by the Legislature.

SEC. 2. The provisions of Section 5125 shall become operative November 1, 1957.

SEC. 3. All duties imposed on the director or the council by this act, except as to the receipt and deposit of funds, may be performed, but it is not mandatory that they be performed until such time as, in the opinion of the director, sufficient funds have been collected under Sections 5125, 5129, 5130, or 5131 to meet the initial expenses of organizing the council and issuing the exemption certificates under this act."

The Division of Small Craft Harbors and the Small Craft Harbors Commission are the successors to, and are vested with all the powers, functions, and jurisdiction of the State Lands Commission with respect to the acquisition, construction, development, improvement, maintenance, and operation of small craft harbors, pursuant to this division. Whenever, by any statute now in force or that may be hereafter enacted, such a power, function, or jurisdiction is imposed or conferred upon the State Lands Commission, such power, function, or jurisdiction shall be deemed to be imposed or conferred upon the Division of Small Craft Harbors and the Small Craft Harbors Commission pursuant to this division. Nothing in this section or in this division shall divest the State Lands Commission of jurisdiction with respect to the leasing of state lands, including state lands used for small craft harbors under this division, for the extraction and removal of oil and gas and other minerals.

5809. The adoption, repeal, amendment or modification of any rules and regulations pursuant to this division shall be made in accordance with the provisions of Chapter 4 (commencing at Section 11370), Part 1, Division 3, Title 2 of the Government Code.

CHAPTER 2. DIVISION OF SMALL CRAFT HARBORS

5821. The Division of Small Craft Harbors shall be administered by the chief of the division under the supervision and direction of the Director of Natural Resources, in accordance with general policies established by the Small Craft Harbors Commission.

5822. The Director of Natural Resources may authorize the chief of the division to exercise his power to appoint employees of the division in accordance with the State Civil Service Act. The director may authorize the chief of the division or any employee of the division to exercise any power granted or perform any duty imposed upon the director by the State Civil Service Act.

5823. The division may prepare plans for, and acquire, construct, develop and improve, small craft harbors, facilities in connection therewith, and connecting waterways. Any small craft harbor so acquired or developed shall be transferred, and its operation relinquished, to a county, city, or any district having power to operate a small craft harbor, in which any part of it is located, upon the request of such city, county, or district, if such city, county, or district enters into an agreement with the division for repayment to the State of all costs incurred by the division in acquiring and developing such small craft harbor, including planning costs. The city, county, or district shall be required by the division to repay such costs by means of deferred payments, such payments to be made in such amounts and at such times as may be provided by the agreement.

5824. In the event that the division acquires, constructs, develops, or improves a small craft harbor pursuant to Section 5823, but receives no request for transfer of its operation to a city, county, or district willing and able to meet the requisite conditions for such a transfer, the division may maintain and operate the harbor.

5825. The division may contract with any other state agency, or a city, county, or district, in the planning, construction, development and improvement of small craft harbors pursuant to this chapter, or for the maintenance and operation of any small craft harbors under the jurisdiction of the division.

5826. The division may provide for the granting of concessions within the boundaries of harbors under the jurisdiction of the division in order to furnish the public with fuel, oil, food, and other facilities, and may grant easements, rights of way, and permits with respect to such harbors.

5826.5. The division shall protect such small craft harbors under its jurisdiction from damage and preserve the peace therein. The chief of the division and such employees of the division as he may designate have the full authority and powers of peace officers for such harbors. The division may adopt such rules and regulations as may be necessary for the purposes of this section. A violation of such rules or regulations is a misdemeanor.

5827. The division, with the consent of the Department of Finance, may acquire by purchase or by condemnation proceedings brought in the name of the people of the State of California, title to or any interest in, or may lease, any real and personal property which the division deems necessary or proper for the purposes of this division.

Proceedings for the condemnation of any real or personal property or any interest therein shall be taken under the provisions of the Code of Civil Procedure relating to eminent domain. The division shall not commence any such proceedings unless the commission first adopts a resolution declaring that public interest and necessity require acquisition by the State of the property or interest therein, described in the resolution, and that such acquisition is necessary and proper for the purposes of this division.

5828. The resolution of the commission shall be conclusive evidence:

(a) Of the public necessity of such proposed acquisition.

(b) That such real or personal property or interest therein is necessary therefor.

(c) That such proposed acquisition is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

5829. The division may make loans to cities, counties, or districts having power to acquire, construct, and operate small craft harbors, for the planning, acquisition, construction, improvement, maintenance, or operation of small craft harbors and facilities in connection therewith, and connecting waterways, if the division finds that the project is feasible. The commission shall establish, by rules and regulations, policies and standards to be followed in making loans pursuant to this section so as to further the proper development and maintenance of a state-wide system of small craft harbors and connecting waterways. Any such loan shall be repaid as provided in Section 5823.

5830. A transfer pursuant to Section 5823 or a loan pursuant to Section 5829 shall not be made to a county or city if it would provide for an indebtedness or liability contrary to the provisions of Section 18 of Article XI of the Constitution unless, at an election called by the governing body of the county or city two-thirds of the qualified electors of the county or city voting thereat have authorized the governing body to accept, expend, and repay the amount of the indebtedness or liability under this chapter. Such election shall be held in accordance with provisions of law for the incurring of bonded indebtedness by the city or county, as near as the same may be applicable. Except as may be prohibited by this section, a transfer pursuant to Section 5823 or a loan pursuant to Section 5829 may be made to a city, county, or district and it may accept such a transfer or loan, notwithstanding any other provision of law limiting or prohibiting the creation of any indebtedness on the part of the city, county, or district.

5831. The division may enter into any contracts or agreements that may be necessary in carrying out the provisions of this division including agreements to hold and save the United States free from damages due to the construction and maintenance by the United States of such works as the United States shall undertake.

5832. The division shall represent the State of California and the Governor of California in relationships with the Chief of Engineers, United States Army, and his authorized agents for the purposes set forth in this division.

5833. Facilities in harbors and connecting waterways established under the provisions of this division shall be open to all on equal and reasonable terms.

5834. The division may recommend to the Director of Natural Resources for transmission to the Legislature such action as may be necessary to provide the finances required of local agencies as a condition for the participation of the United States in any project in which the division may act.

5835. The division may enter into agreements with the United States and with any county, city, district, or other political subdivision of this State in connection with participation with the United States in any project in which the division may act and may, also, provide such adjustments which, in the judgment of the division, are in the best interest of the State of California.

5836. The division may enter into any contract of agreement with the War Department of the United States, or any other agency of instrumentality of the United States, for the dredging of harbors and the erection of breakwaters, piers, or any other device for the protection of vessels.

5837. The division may do any act or enter into any contract or agreement desirable in carrying out the purposes of this division.

5838. The division may take such action as may be necessary to take advantage of any act of Congress heretofore or hereafter enacted which may be of assistance in carrying out the purposes of this division.

5839. On or before the fifteenth day of January of each year in which a general session of the Legislature is held, the chief of the division shall make a report to the Director of Natural Resources for transmission to the Legislature and to the Governor covering the operations of the division for the preceding biennial. The division shall also make such special reports as are requested by the Director of Natural Resources or the Governor.

5840. For the purposes of this division, the division may receive and accept for the State any gift, device, grant or other conveyance of title to or any interest in real property. It may receive and accept gifts, donations, contributions, or bequests of money to be used in acquiring title to or any interest in real property or in improving it, in connection with the development and operation of small craft harbors and connecting waterways. It may also receive and accept personal property for such purposes.

5841. The division, with the approval of the Department of Finance, may transfer, sell or otherwise dispose of personal property under its jurisdiction, and may contract with other public agencies for its custody.

CHAPTER 3. SMALL CRAFT HARBORS COMMISSION

5851. There is in the Department of Natural Resources a Small Craft Harbor Commission.

5852. The commission shall be composed of five members appointed by the Governor, with the advice and consent of the Senate.

LETTER OF TRANSMITTAL

JOINT LEGISLATIVE COMMITTEE ON
AGRICULTURAL AND LIVESTOCK PROBLEMS
SENATE, CALIFORNIA LEGISLATURE, April 23, 1957

*To the President of the Senate, the Speaker of the Assembly
and Other Members of the Senate and Assembly*

The Joint Legislative Committee on Agricultural and Livestock Problems, initially created by Senate Concurrent Resolution No. 51 (Res. Ch. 141), Regular Session of 1945, reconstituted at succeeding regular sessions and presently functioning pursuant to the provisions of Senate Concurrent Resolution No. 85 (Res. Ch. 250), Regular Session of 1955, submits a partial report in five parts as follows:

- Part I. Proposed Amendments to the Produce Dealers and Processors Acts
- Part II. Proposed Amendments to the Foreign Cold Storage Meat Act
- Part III. Proposals Relating to Injurious Materials and License Fees for Commercial Pest Control Operators
- Part IV. Proposed Extension of the Federal-State Market News Service
- Part V. Meat Statistics

The observations and recommendations made in the various sections of this report are based on testimony presented to the committee at a series of meetings held in several parts of the State during the 1955-57 interim period.

It is indeed encouraging to note that through the use of the interim committee study approach to our perplexing and complicated farm problems, differences of opinion heretofore irreconcilable have been resolved and legislation proposed by the committee for introduction at this session of the legislature, even though in several instances substantive in nature, has the complete support of all interested parties.

Respectfully submitted,

PAUL L. BYRNE, Chairman
F. PRESLEY ABSHIRE
EARL D. DESMOND
A. A. ERHART
LLOYD W. LOWREY
CLAYTON A. DILLS

PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

Lord, God, we pray Thee that the temporal and spiritual wellbeing of our great State may be continuously sustained and furthered by the work of these, our State Senators. Give them, we beseech Thee, O divine Master, the strength to carry the burden of their tasks in a manner pleasing unto Thee and our fellow citizens. Take from them, the indolence and vanity—the selfishness and thoughtlessness that might bring them into ill favor with their fellow men. Imbue them with that righteousness without which there can be no peace—that love without which there can be no harmony—that brotherhood without which there can be no agreement. May Thy spirit, Lord, ever be with them to broaden and deepen their lives and may the sense of Thy nearness put to flight the petty cares and fears that so often consume the joys and nobleness of life. AMEN.

It is, therefore, necessary that this act shall take immediate effect."

(b) Except as otherwise provided in subdivision (c), the department shall collect such fee and any penalty by seizure of such vehicle from the person or persons in possession thereof, if any, and by the sale of such vehicle.

When a vehicle that has been seized to satisfy a lien of the department for fees and penalties is appraised at a value not exceeding twenty-five dollars (\$25), by an officer or employee of the department, the sale shall be conducted in the manner set forth in this section.

(c) When the department determines that the cost of collection of any fee, penalty, or both, by seizure and sale as provided herein will exceed the proceeds to be realized therefrom the department need not pursue this method of collection. The provisions of this subdivision shall be limited to vehicles of a value of fifty dollars (\$50) or less as appraised by an officer or employee of the department or the California Highway Patrol; and provided further, that such vehicle shall be reduced to junk. The department shall indicate its intention to refrain from collection of fees or penalties by seizure and sale as provided herein by affixing an appropriate notice to each such vehicle concerned.

Give us a still stronger faith in the sacred rights of human equality—life, liberty, and the pursuit of happiness. When doubts assail us, be Thou with us to save us from confusion and distrust. Make us truly tolerant of the opinions of others. May we make every effort to understand and appreciate the beliefs, practices and habits of our fellow man. We declare our dependency upon Thee and we acknowledge that Thou art the source of all our blessings. Teach us this day the true meaning of loyalty and may our patriotism imbue us with a sense of responsibility for the right use of the blessings with which Thou hast endowed our State. "SECTION 1. Article 1.5 (commencing with Section 1235) is added to Chapter 3, Part 3, Division 4 of the Fish and Game Code, to read:

Article 1.5. Management of Deer

1235. As used in this article "general deer hunting season" means the annual season for the area in question as is set by the commission under its general regulatory powers, or set by statute, for the taking of male deer.

"Either-sex deer permits" means permits authorizing the taking of male or female deer, except spotted fawns and spike bucks.

1237. The department shall designate deer herd management units or areas and designate the manager for the units or areas. Boundaries of such areas or units, unless appropriate, need not follow county boundary lines.

1239. Prior to the May meeting of the commission, as required in Section 15 of this code, the department shall recommend to the commission whether any antlerless hunts should be ordered. The department shall inform the commission of the condition of each management area or unit. Upon receipt of the recommendations and information required in this section, the commission shall make such material known to the public. The recommendations of the department shall include the number, if any, of antlerless deer that should be taken on areas or units, whether the permits should be either-sex permits, the proposed dates for each such taking, the number of permits proposed for each area or unit, the fee, if any, for such permits and the manner in which such permits would be issued.

1239.1. At its May meeting required by statute the commission shall announce the full contents of its proposed orders for the taking of antlerless deer and fix the

times and places at which hearings on the proposed orders shall be held. The time shall not be less than 21 days from the day of said meeting and the place shall be the county seat of each of the counties affected. Notice of the hearing shall be published at least once, and at least 10 days prior to the hearing, in a newspaper of general circulation in each county affected, or if no such newspaper is published in said county, then in such newspaper in an adjoining county. The hearings shall be conducted by either (a) the commission, (b) a member of the commission designated by it, or (c) the director or other employee of the department if specifically directed so to do by the commission.

1239.2. At least 10 days prior to the holding of any such hearing the commission shall notify, by certified mail, the board of supervisors of each county affected of the details of its proposed order affecting such county and the time and date of hearing.

1239.3. Not later than 15 days after the holding of such hearing, the board of supervisors may, by resolution adopted, object to the proposed order of the commission or may, by resolution adopted, determine that the proposed order should be modified, setting forth the necessary modifications.

1239.4. The commission shall meet on the last Monday in July to make such orders under this article as it may find necessary. The commission at its July meeting shall not authorize the taking of deer under this article in a county if it has received from the board of supervisors of that county a resolution objecting to such taking. In the event a board of supervisors of a county has submitted a resolution determining that the commission's proposed orders should be modified for that county, the commission shall either so modify its orders or shall not authorize the taking of deer under this article in such county.

1241. The commission has no power under this article to authorize the taking of spotted fawn or spike buck, or to regulate the taking of male deer during the general deer hunting season.

1242. The commission may issue permits under this article either on a first-come, first-served basis or by state-wide drawing or by a combination of these methods and may authorize a specified number of permits to be issued to licenseholders on a first-come, first-served basis at the county seat of a county in the unit or area. Such local issuance shall be held at such time in advance of any drawing to allow those persons unsuccessful at the first-come, first-served local issuance to participate in the drawing.

1242.1. A licensed hunter who desires to obtain a permit and has not received one on a first-come, first-served basis shall forward the necessary application to the headquarters office of the department. All applications may indicate a first and second preference of unit or area in which the applicant wishes to hunt.

1242.2. Upon notification that his application has been selected or on being successful on a first-come, first-served basis, the licenseholder shall submit the required fee, if any, and shall be issued a permit. Any unclaimed permits issued on a drawing basis may be made available on a first-come, first-served basis.

1242.3. The commission may require that the deer license tag designated for use on the second male deer taken during the general deer hunting season shall be used with, or in place of, the permits provided for in this article.

1249. The provisions of this article shall have no force or effect after the expiration of Section 19.6.

SEC. 2. Section 16.3 of said code is amended to read:

16.3. Any order of the commission pursuant to this article relating to birds and mammals may apply to all or any districts or portions thereof, at the discretion of the commission, and may do any or all of the following as to any or all species or varieties:

(a) Establish, extend, shorten, or abolish open seasons and closed seasons.
(b) Establish, change, or abolish bag limits and possession limits.
(c) Establish and change territorial limits for the taking of any or all species or varieties.

(d) Prescribe the manner and the means of taking any species or variety.
(e) Establish, change, or abolish restrictions based upon sex, maturity, or other physical distinctions.

The commission has no power under this article to make any order authorizing or permitting the taking of any bird or mammal in any refuge or preserve heretofore or hereafter established by statute; or to authorize or permit the taking of any spike buck, spotted fawn or antlerless deer. [and no order of the commission authorizing or permitting such taking shall hereafter be effective for such purpose; provided, however, the provisions of this paragraph shall not apply to Districts 1M and 4P until the ninety-first day after final adjournment of the 1955 Regular Session of the Legislature.] "Antlerless deer" means female deer, fawns of either sex other than spotted fawns, and male deer with unbranched antlers on both sides which are not more than three inches in length. "Spotted fawn" means a young deer born that year which has spotted pelage. "Spike buck" means a male deer with unbranched antlers on both sides which are more than three inches in length.

SEC. 2. Section 16.4 of said code is repealed.

SEC. 3. Section 39.1 of said code is amended to read:

39.1. Whenever after due investigation the commission shall find that big game animals and upland game birds, *other than antlerless deer*, have increased in numbers in any [fish and game district] *area*, other than a refuge or preserve heretofore or hereafter established by statute, to such an extent that a surplus exists, or to such an extent that such animals and birds are damaging public or private property, or are over-grazing their range, the commission is hereby authorized to provide, by order, for a special hunting season for such animals and birds, additional to or concurrent with any open season [specified by law]; or to provide for increased bag limits; or to remove sex restrictions specified by law. *The taking of antlerless deer under this section may only be authorized if the commission determines such animals are damaging public or private property.* Prior to the making of such an order the commission at an open meeting shall publicly announce the contents of the proposed order and fix a time and place at which a hearing on the proposed order shall be held. The time shall not be less than [35] 21 days from the day of said meeting and the place shall be the county seat of [the county in which the area to be affected by the order lies or, if such area lies in more than one county, the county seat of the county in which the greater portion of such area lies] *each of the counties affected.* Notice of the hearing shall be published at least once, and at least [30] 10 days prior to the hearing, in a newspaper of general circulation in [the county] *each of the counties in which the hearing is to be held, or if no such newspaper is published in said county or counties then in such a newspaper in an adjoining county.* The hearing shall be conducted by either (a) the commission, (b) a member of the commission designated by it, or (c) the director if directed so to do by the commission. Such employees of the department as may be necessary or are requested by any interested group of persons shall be present at the hearing. After the hearing the commission may abandon the proposal or make a final order, with any modifications it deems appropriate or without modification.

The order may fix a license fee for special hunting, designate the number of special licenses to be issued, the area in which such hunting will be permitted, the number and sex of animals or birds, *except for the limitations specified herein concerning antlerless deer*, that may be killed by each holder of special license, and the conditions and regulations to govern such hunting. The money received from the sale of such licenses shall be paid into the Fish and Game Preservation Fund."

Lord, God, Almighty, in the busy pursuit of our daily lives, may we pause to seek the consoling influence that comes from acknowledging Thee as our Creator. We humbly ask Thee that in all our deliberations and decisions, we may put service above self—ideals above personal interests—moral responsibility above personal gain. May we, as leaders of our government, always be men of virtue and honor through whom the well-being of our State may be promoted and Thy name glorified among us. Make us Lord, obedient to Thy will—to do only that which is just and honorable. Give us the vision to see that justice alone will endure and that only in being just to all others can we make our lives acceptable to Thee. May our deeds ever be worthy of Thy approval. AMEN.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 988.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 29, 1957

*To the Honorable Members of the Senate
Sacramento, California*

GENTLEMEN:

Senate Bill No. 988, "An act to add Chapter 13 (commencing at Section 3375) to Part 1 of Division 6 of the Harbors and Navigation Code, to provide for the issuance and sale of state bonds to create a fund for the use of the Board of State Harbor Commissioners for San Francisco Harbor in improving that harbor and its facilities, including the wharves, piers, seawalls, railroad, spurs, appurtenances thereto, and any necessary dredging and filling in connection therewith; to create a sinking fund for the payment of the bonds; to define the duties of state officers in relation thereto; and to make an appropriation for the expense of printing the bonds,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill provides for the issuance and sale of state bonds in the aggregate sum of \$50,000,000 payable into the Fifth San Francisco Seawall Fund and to be expended by the Board of State Harbor Commissioners for San Francisco Harbor in improving that harbor and its appurtenances and facilities. The bill also creates the Fifth San Francisco Seawall Sinking Fund and provides that available moneys in the San Francisco Harbor Improvement Fund not otherwise required by law to be applied to some specified or particular purpose shall be transferred at times set forth in the bill into said sinking fund for the payment of the principal and interest of said bonds. The bill further provides that it shall become effective only if approved by a vote of the people at the next general election in November 1958. In these circumstances, prompt consideration of this bill is desirable and no purpose would be served by withholding action upon it until after final passage of the Budget Bill.

I therefore recommend consideration of Senate Bill 988 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

After deciding all petitions for determination, the board shall complete the assessment of state-assessed property by entering upon the board roll for each county assessed values [representing the same percentage of market value so determined as has been found, under Chapter 2, Part 3 of Division 1 of this code, to be represented by the assessed value, after equalization, entered upon the local roll in relation to the market value of property there assessed.] *at the percentage of market value required for compliance with Section 1837.* In making these entries upon the board roll, the board may enter assessed values which are divisible by ten (10), counting any fractional amount which is more than five dollars (\$5) as ten dollars (\$10) and omitting it when it is five dollars (\$5) or less. The assessed value thus entered upon the roll by the board shall constitute the actual value of the property as of the first Monday in March for purposes of taxation. Intangibles shall be assessed without reference to the percentage herein specified.

SEC. 8. Section 758 of said code is renumbered and amended to read:

[758] 757. [Immediately after the fourth Monday in August] *On or before August 10th* the board shall transmit to each county auditor a roll showing the assessments made by the board in the county and in each city and revenue district in the county; provided, however, that the roll need not show the assessments made by the board in a revenue district which did not levy a tax or assessment during the preceding year. If the roll does not show the assessments in a revenue district as herein provided and a notice of a proposed levy is furnished the board in writing, the board shall furnish an estimate of the total assessed value of state-assessed property in the district and shall transmit thereafter to the county auditor a statement of roll change showing the assessments made by the board in the district. The estimate shall be regarded as establishing the total assessed value of state-assessed property in the district for the purpose of determining the tax rate of the district.

SEC. 9. Section 759 of said code is renumbered and amended to read:

[759] 758. The board shall also immediately transmit to the auditor of each city the lien date of which is the first Monday in March a roll showing the assessments made by the board in the city and in each district for which the city assesses property and collects taxes or assessments.

SEC. 10. Section 760 of said code is renumbered and amended to read:

[760] 759. State-assessed property is subject to taxation to the same extent and in the same manner as other property.

SEC. 11. Section 1831 of said code is amended to read:

1831. To enable the board to perform its *constitutional* duties under this article and Sections 9 and 14 of Article XIII of the State Constitution, the board shall make a survey, [annually] *not less often than triennially*, in each county to determine the [relationship between the total value of land, improvements and tangible personal property entered upon the roll by the assessor, and the total market value thereof. As a basis for this determination, the board shall consider sales and other appraisal data compiled by appraisers competent to determine accurately the market value of the property. These data shall relate to representative samples of property subject to local assessment in each county sufficient in number and dispersion to assure an adequate cross-section of the taxable wealth within the county, both as to the classes of property enumerated and as to the location thereof.] *total market value of all locally assessable tangible property as of the lien date for the last equalized roll. As a basis for this determination, the board shall ascertain the market value of a sample of locally assessable tangible property so selected in size and dispersion to insure an adequate representation in each county of the several classes of property throughout the county. In ascertaining the market value of the property in the sample the board shall consider appraisal data compiled by competent appraisers. The board shall make surveys each year in no fewer than 18 nor more than 22 counties.*

SEC. 12. Section 1832 is added to said code, to read:

1832. As soon as appraisals have been made in any county by the board pursuant to Section 1831, the board shall give the assessor of the county a reasonable opportunity to examine and discuss the appraisals with the board appraisers. If the assessee of property with respect to which such an appraisal has been made so requests, the board shall also give him a reasonable opportunity to examine and discuss the appraisal with the board appraisers.

SEC. 13. Section 1833 is added to said code, to read:

1833. After completing a survey pursuant to Section 1831, the board shall estimate any change that may have occurred in the total market value of tangible property subject to local assessment between the lien date of the roll for which the survey was made and the lien date of the current roll. The board shall use as the basis for such estimate data on population, school, enrollment, retail sales or other factors indicative of change or lack of change in the total market value of the property. The relationship between the total assessed value of the tangible property on the current local roll and the estimated total market value so determined shall be computed for each county of the State by July 15th.

SEC. 14. Section 1834 of said code is amended to read:

1834. On or before July 15th of each year a notice of the determination of the relationship between the total assessed value of tangible property on the current local roll and the total market value of tangible property subject to local assessment as of the lien date of that roll shall be transmitted to the county assessor and to the board of supervisors of each county. If the county, through its assessor or board of supervisors, desires to be heard with respect to the assessment ratio [based upon the survey] so determined for the county, opportunity for such hearing shall be afforded by the board [between the third Monday in July and the third Monday in August] prior to August 10th, upon application therefore in writing filed not later than [the first Monday in August] July 25th. The application shall specify in what respects the county believes that the determination of the relationship between the assessed value and the market value of the property within the county is in error. In the absence of a timely application, the determination is final, and no hearing is required with respect to any equalization action by the board based upon the assessment ratio so established.

SEC. 15. Section 1836 is added to said code, to read:

1836. Equalization by the board of the valuation of taxable property in counties for the purposes of taxation shall be by raising or lowering by a uniform percentage the value of all tangible property entered upon the secured local roll of a county.

(a) If, pursuant to Section 1833, any county is found to have a ratio of assessed to market value which, for the lien date of the year in question, is lower than the applicable ratio shown in column 1 of the following schedule, or which, for such year, is higher than the applicable ratio shown in column 3 of such schedule, the board shall equalize assessments on the local roll to the end that such county shall have a ratio of assessed to market value that does not differ from the applicable ratio shown in column 2 of such schedule.

(b) If, pursuant to Section 1833, any county is found to have a ratio of assessed to market value which, for the lien date of the year in question, is equal to or higher than the applicable ratio shown in column 1 of the following schedule, and which, for such year, is equal to or lower than the applicable ratio shown in column 3 of such schedule, the board, in its discretion, need take no equalization action with respect to assessments on the local roll of such county.

If the ratio for such county, as determined pursuant to Section 1833, is not between 32 percent and 35 percent, inclusive, the board shall equalize assessments on the local roll of the county at a level of 33½ percent of market value.

SEC. 16. Section 1837 is added to said code, to read:

1837. The board shall adjust the valuation of the taxable property in the county for the purposes of taxation by assessing, on the board roll for the county, land, improvements, and tangible personal property at a valuation which bears the same relationship to the market value of the property as that applied to locally assessed property, as determined pursuant to Section 1836, except that the ratio of assessed to market value, expressed as a percent, for state-assessed property shall not be raised or lowered by more than two percentage points each year, to the end that all state-assessed property shall be subject to assessment at 33½ percent of the market value thereof for assessments made as of not later than the first Monday in March, 1967. The board shall, however, prepare tabulations each year showing the ratios of assessed to market value of property subject to local assessment for each county in the State as determined pursuant to Section 1833. Such tabulations shall also show the ratio of assessed to market value for the individual properties in the sample when surveys are conducted for a county pursuant to Section 1831, as well as the calculations by which the ratio of assessed to market value for such county is determined from the ratios applicable to individual properties within that county. Such tabulations shall also show the data used to estimate the total market value of the tangible property on the current local roll from the total market value of the tangible property on the local roll of a prior year, as required by Section 1833, as well as the statistical methods used to arrive at the determination required by Section 1833. All such tabulations shall be open for inspection by all persons interested.*

SEC. 18. Section 1839 of said code is amended to read:

If the number of such matters to be heard, or the amount of time required to hear them, prevents the board from concluding this session by August 10th, the board may continue with its equalization proceedings to and including August 25th, and may defer its final action on the equalization of assessments accordingly, but it shall not hear any matter as to which timely application or notice has not been made or given during July.*

"SEC. 3.4. The district shall have the power of eminent domain to acquire within [or outside] the district by condemnation in the manner and to the extent prescribed in Article 4, Section 14 of the Constitution and Title 7, Part 3 of the Code of Civil Procedure, as now existing or hereafter amended, all property or interests therein necessary or convenient for carrying out the powers and purposes of the district except that the district shall not have power to acquire by condemnation publicly owned property held or used for the development, storage or distribution of water for public use; and it is hereby declared that the use of the property which may be condemned, taken or appropriated under the provisions of this act, is a public use, subject to regulation and control of the State in the manner prescribed by law. The district in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal or relocation of any structure, railways, mains, pipes, conduits, wires, cables or poles, of any public utility which is required to be moved to a new location; and provided further, that notwithstanding any other provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated.

The power of eminent domain vested in the district shall include the power to condemn in the name of the district either the fee simple or any lesser estate or interest in any property which the board of directors by resolution shall determine is necessary for carrying out the purposes of the district. Such resolution shall be prima facie evidence that the taking of such private property, to the extent stated in said resolution, is necessary for carrying out the purposes of the district.

SEC. 2. Section 4.1 of said act is amended to read:

Sec. 4.1. The district shall have the power: to control flood and storm waters within the district and the flood and storm waters of streams outside of the district, which flow into the district; to conserve such waters by storage in surface reservoirs, to divert and transfer such waters for beneficial uses within the district; to release such waters from surface reservoirs to replenish and augment the supply of waters in natural underground reservoirs; and otherwise to reduce the waste of water and to protect life and property from floods within the district; provided, that the district may not construct or acquire any works or undertake any project for flood control purposes, except in conjunction with and as part of the construction or acquisition of works or the undertaking of projects for the purposes enumerated in Section 4 of this act).

SEC. 3. Section 20 is added to said act, to read:

Sec. 20. The board of directors may by its resolutions adopted from time to time establish zones within the territory of the district without reference to the boundaries of other zones, setting forth in such resolutions legal descriptions thereof and entitling each of such zones by a zone number, and institute zone projects for the specific benefit of such zones. The board of directors may, by resolution, amend the boundaries by annexing property to or by withdrawing property from said zones or may divide existing zones into two or more zones or may superimpose a new or amended zone on zones already in existence, setting forth in such resolutions descriptions of the amended, divided or superimposed zones by metes and bounds and entitling each of such zones by a zone number. Proceedings for the establishment of such zones may be conducted concurrently with and as a part of proceedings for the instituting of projects relating to such zones, which proceedings shall be instituted in the manner prescribed in Section 20.1 of this act.

SEC. 4. Section 20.1 is added to said act, to read:

Sec. 20.1. The board of directors may institute projects for the financing, acquiring, constructing, maintaining, operating, extending, repairing or improving of any work or improvement to make water available for beneficial use or to control flood or storm waters which work or improvement is of common benefit to a zone. For the purpose of acquiring authority to proceed with any such project the board of directors shall by its resolution determine that the work or improvement is for the benefit of a single zone and specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the zone and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given for a period of not less than twenty (20) days. If there is a newspaper of general circulation published in the territory proposed to be formed into a zone, notice shall be given by publication once a week for two (2) consecutive weeks prior to the hearing, the last publication of which must be at least seven (7) days before said hearing. If there

is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places within the zone. Said notice shall designate a public place in the district where a copy of the map of the project may be seen by any interested person.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board of directors shall consider all written and oral objections to the proposed project and to the inclusion or exclusion of property within the proposed zone or participating zone. Upon the conclusion of the hearing the board of directors may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board of directors, and if the board proceeds with a proposed project it shall exclude from the zone all property which will not be benefited by the proposed project.

In all matters in this section referred to, the last equalized assessment roll of the County of Solano next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board of directors must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to do so.

The board of directors shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 5. Section 20.2 is added to said act, to read:

Sec. 20.2. The board of directors shall have the power, in any year:

(a) To levy taxes or assessments in each or any of said zones to pay the cost and expenses of carrying out, acquiring, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the

benefits derived or to be derived by said respective zones, by either of the following methods:

(1) By a levy or assessment upon all property within a zone, including land, improvements thereon, and personal property;

If the district enters into a contract with a governmental body pursuant to Section 5.9 of this act by the terms of which work is to be performed by such governmental body if any specified zone, for the particular benefit thereof, and by said contract the district is to pay to such governmental body a sum of money in consideration or subvention for the performance of said work by such governmental body, the board of directors may levy and collect a special tax or assessment upon the property in such zone, whereby to raise bonds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said taxes or assessments shall be paid into the county treasury to the credit of the respective zones thereof, and the board of directors shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivisions (a) or (b) of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, or for projects authorized or established outside such zone, or zones, but for the benefit thereof.

Any tax or assessment levied pursuant to this section upon any particular zone or zones shall not be subject to the provisions of Section 10.1 of the act.

Sec. 6. Section 20.3 is added to said act, to read:

Sec. 20.3. (a) Whenever the board of directors shall determine that a bonded indebtedness should be incurred by any zone to pay the cost of any work or improvement in said zone, the board may, by resolution, determine and declare the respective amounts of bonds necessary to be issued in said zone in order to raise the amount of money necessary for such work or improvement, and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the recorder of Solano County within five days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(b) Thereafter the board of directors may call a special election at which shall be submitted to the qualified electors in said zone the question of whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. All of the provisions of this act relating to bonds of the district shall be applicable to bonds of a zone except that Section 9.1 of this act shall not apply to bonds of a zone."

"Article 1. General Provisions and Definitions

17750. This chapter shall be known as "The Trading Stamp Act of 1957."

17751. The Legislature hereby declares that the issuance, gift, use, sale or other disposition of trading stamps is affected with the public interest; that the purposes of this chapter are to regulate the issuance, gift, use, sale or other disposition of trading stamps, to protect the public against fraud and deception and against default in the redemption of trading stamps, to foster and encourage fair and open competition and to prevent the realization of excessive profits at the expense of the public by those who are engaged in or responsible for the original issue, gift, use, sale or other disposition of trading stamps which results from the fact that many trading stamps are never produced and surrendered for redemption. This chapter shall be liberally construed so that its beneficial purposes will be achieved.

17752. As used in this chapter:

- (a) "Person" includes firm or corporation.
- (b) The masculine gender includes the feminine and neuter genders.
- (c) "Goods" means and includes any form of tangible personal property.
- (d) "Trading stamps" means and includes any form of stamp, cash discount stamp, coupon, ticket, certificate, card, receipt or any similar device or devices, which is, either directly or indirectly, issued, sold, given or otherwise furnished or delivered by any person to any other person in connection with or as a part of the sale and purchase of any goods or services or which is designed or intended to be used for such purpose and which entitles the purchaser receiving the same with such sale and purchase of goods or services, or the holder thereof, to procure or otherwise receive from any person money goods or any thing of value, free of or without charge, or for less than the face value of such money, or for less than the actual or stated retail market price or value of such goods or thing of value, as the case may be, upon the production or presentation of any number or a stated number of said stamps, cash discount stamps, coupons, tickets, certificates, cards, receipts or other similar devices; but an offer made or endorsed by a manufacturer upon, as a part of or within the original wrapper or container in which goods are sold, of a premium or a reward for the return to the manufacturer of such goods or any dealer in such goods of all or any part of that wrapper or container or any coupon placed in or attached to such wrapper or container is not a trading stamp.

Article 2. Regulations

17755. No person shall issue, give, use, sell or otherwise distribute or furnish, or offer to issue, give, use, sell or otherwise distribute or furnish trading stamps, unless said trading stamps shall have legibly printed or written upon the faces thereof the redeemable value thereof, expressed in cents or fractions of cents, as the case may be. The redeemable value so printed or written upon the face of each trading stamp shall not be less than the actual value of such stamp, as determined by the issuer, for premium redemption purposes. Such printed or written value shall be regarded as the stated value of such stamp for the purposes of this chapter.

17756. Any person who issues, gives, sells or otherwise distributes or furnishes any trading stamp to any merchant or dealer in goods or any supplier of services, shall, upon production thereof, redeem the same either in tangible personal property, or in cash in good and lawful money of the United States of America, at the option of the holder thereof, and any number of such trading stamps shall be so redeemed at the value in cents or fractions of cents printed upon the faces thereof.

and it shall not be necessary for the holder thereof to have or present for redemption any stipulated number of such trading stamps before demand for redemption may be made, if the aggregate stated value of said stamps is not less than one cent.

17757. Any person engaged in any trade, business or calling who gives, distributes, delivers or furnishes to any person dealing with him, in consideration of or in connection with the sale of any tangible personal property, service or output of a service trade, any trading stamp shall, upon the refusal or failure of the person responsible for the original issuance or sale of the same to redeem the same as provided in Section 17756, be liable to the holder thereof for the stated value thereof, and shall, upon presentation, redeem the same either in tangible personal property, or in cash in good and lawful money of the United States of America, at the option of the holder thereof, and in such case any number of such trading stamps shall be so redeemed at the value in cents or fractions of cents printed upon the faces thereof, and it shall not be necessary for the holder thereof to have or present for redemption any stipulated number of such trading stamps before demand for redemption may be made, if the aggregate stated value of said stamps is not less than one cent.

17758. Each person operating a store, office or other place of business at or from which trading stamps are issued, given, used, sold or otherwise disposed of in connection with the sale of tangible personal property, services or the output of a service trade, shall place and maintain, in a conspicuous position in such store or place of business, a clear and legible sign bearing the words "Trading Stamps Not Good If Not Redeemed Within One Year From Printed Date of Issue." All books and other devices furnished for the collection of trading stamps by holders thereof shall also bear or contain a similar statement which shall appear in bold type in a conspicuous place on each such book or other device.

17759. From and after the effective date of this chapter, each trading stamp thereafter issued, given, used, sold or otherwise disposed of within this State which is not presented for redemption and redeemed within one year after its date of issue shall thereupon become unclaimed property and all rights of the holder of such stamp shall revert and belong to the State and the holder of such stamp shall no longer possess or have any rights under or by reason of any such stamp. In order to carry out and enforce the foregoing reversion and escheat provisions, each trading stamp issued, given, used, sold or otherwise disposed of after the effective date of this chapter shall have printed legibly on its face the date of issue (which date shall not be later than the date on which it is issued, given, used, sold or otherwise distributed in, with or for the sale of any goods or services) and the name of this State; and each person who makes or is responsible for the original issue, gift, sale, use or other disposition of trading stamps shall make and maintain records of (a) the trading stamps so issued, given, used, sold or otherwise distributed; (b) the date or dates of their issue; and (c) the trading stamps redeemed by or for them within one year after their date or dates of issue, so that such records will disclose accurately the total number of trading stamps so issued, given, used, sold or otherwise distributed within this State which are not presented for redemption and redeemed within one year after their date or dates of issue.

17760. Each person who makes or is responsible for the original issue, gift, sale, use or other disposition of trading stamps shall file with the State Treasurer, on or before March 15, 1959, a sworn report, in such form as shall be prescribed by the State Treasurer, stating (a) the total number of trading stamps so issued, given, used, sold or otherwise distributed by such person within this State between the effective date of this chapter and December 31, 1958; (b) the total number of trading stamps referred to in clause (a) above which were not presented for redemption and redeemed within one year after their date or dates of issue; (c) the stated value or values of said trading stamps, as imprinted on their faces; and (d) such other information as the State Treasurer may reasonably require for the purpose of determining the number and value of the stamps subject to the reversion and escheat provisions contained in this chapter. Sworn reports in similar form shall be filed by each such person with the State Treasurer annually on or before the fifteenth day of March of each succeeding year for each preceding calendar year; provided, that in those cases in which any person or his predecessor in interest, has filed one or more of the reports provided for in this section, each report after the initial report shall account for and include the total number of trading stamps originally issued, given, used sold or otherwise distributed by such person or his predecessor in interest within the period covered by the last preceding report which were not presented for redemption and redeemed within one year after their date or dates of issue.

17761. At the time of filing the report provided for in Section 17760, the person making such report shall pay to the State Treasurer a sum of money equal to the aggregate stated value of all trading stamps originally issued, given, sold, used or otherwise distributed by such person or his predecessor in interest within or before (but not before the effective date of this chapter) the period for which such report is made, which were not presented for redemption and redeemed within one year after their date or dates of issue, to the extent that liability for the payment to the State Treasurer of the stated value of said unredeemed trading stamps has not

already been satisfied. The State Treasurer shall enforce the collection and recovery of all amounts payable under the provisions of this section by instituting such legal actions and using such process as are prescribed or available for the collection and recovery of any obligation owing or payable to this State. All payments received by the State Treasurer pursuant to this section shall be credited to the General Fund.

17762. Each person required to file the report provided for in Section 17760 shall also file with the State Treasurer, on or before the 15th day of each month, a sworn report, in such form as shall be prescribed by the State Treasurer, stating the total value, as imprinted on their faces, of all trading stamps issued, given, used, sold, or distributed by such person in the preceding calendar month. At the time of filing this report, such person shall pay to the State Treasurer a sum of money equal to five percent (5%) of the total value shown in the report. Payments received by the State Treasurer pursuant to this section shall be held by the State Treasurer until the 15th of March of the year following the year in which such payments are received. At that time, or as soon thereafter as the liability under Section 17761 of such person for the year in which such payments are received can be determined, such payments shall be credited to the General Fund in satisfaction, or partial satisfaction, of that liability. Any excess of such payments over that liability shall be returned to such person, or may, at the option of such person, be retained to offset such liability for future years. The first report required by this section shall be filed on or before the 15th day of the month following the first full calendar month after the effective date of this chapter and shall cover the entire period from the effective date of this chapter until the end of the first full calendar month following that date.

Article 3. Penalties and Enforcement

17770. Any person who, for himself or for another person, violates any of the provisions of this chapter is guilty of a misdemeanor for each single violation and upon conviction thereof shall be punished by a fine of not less than one hundred dollars (\$100) nor more than one thousand dollars (\$1,000) or by imprisonment not exceeding six months or by both said fine and imprisonment. Each separate violation shall be a separate offense and each day of the continuance of such violation shall be deemed a separate offense.

17771. The Attorney General may maintain an action to enjoin a continuance of any act or acts in violation of any provision of this chapter and shall be entitled to recover in such action from the defendant the cost of suit. Upon the third conviction for the violation of any of the provisions of this chapter by any corporation, it shall be the duty of the Attorney General to institute proper suits or quo warranto proceedings in any court of competent jurisdiction for the forfeiture of its charter, rights, franchises or privileges and powers exercised by such corporation and to permanently enjoin it from transacting business in this State. If, in such action, the court finds such corporation has been convicted of not less than three violations of any of the provisions of this chapter, it shall enjoin said corporation from doing business in this State permanently or for such time as the court shall order, or it shall annul the charter or revoke the franchise of such corporation.

Article 4. Constitutionality

17780. If any section, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this chapter. The Legislature hereby declares that it would have passed this chapter, and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, sentences, clauses or phrases thereof be declared unconstitutional."

State Senate*

DEAR SENATOR BURNS: Reference to the Histories elicits the fact that up to the conclusion of yesterday's business, we had disposed of 747 Senate measures and 284 Assembly measures, for a total of 1,031 to date.

"Sec. 2. Section 189 of the Streets and Highways Code is amended to read:

189. [All State Highway Fund money which is allocated to and available for expenditure upon state highways in County Group No. 1 shall be subject to the appropriations therefrom made by Chapters 5 and 9 of the Statutes of 1933.] On or before the first day of each year the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of crossings at grade of city streets or county roads and the tracks of any railroad corporation or corporations in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures. The commission shall include in such listing only such crossings which in its judgment are most urgently in need of separation, taking into consideration the possibility of financing the same under the provisions of this code.

SEC. 3. Section 190 is added to the Streets and Highways Code, to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1 of this code, commencing with the 1958-59 Fiscal Year, the sum of five million dollars (\$5,000,000) shall be set aside for allocations to grade separation projects on county roads or city streets as provided in Sections 189-191, inclusive, of this code. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of said sections, except that in no event shall allocations in any one fiscal year in excess of a total of five million dollars (\$5,000,000) be made. An allocation shall be made only when the affected local agency furnishes evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. In the event, after an allocation has been made, the construction contract has not been awarded within

one year, the commission may order the allocation canceled and the funds allocated shall revert to the State Highway Fund for use on state highways.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars (\$5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering costs expended by a local agency prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The department and the commission may revert as of October 1st of each fiscal year any unallocated amount from the annual sum of five million dollars (\$5,000,000) for that fiscal year.

Such project may be constructed by the local agency concerned, or, by agreement between the local agency and the department, the department may acquire the necessary rights of way in the name of the local agency, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission, from the funds made available for the current or subsequent fiscal years. If more projects comply with the requirements hereof in a single year than can be financed from the sum of five million dollars (\$5,000,000), allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission. Allocations to specific projects by the department shall remain available until expended.

SEC. 4. Section 191 is added to the Streets and Highways Code, to read:

191. Allocations for specific projects shall be deemed expenditures within the county in which the project is situated for the purpose of compliance by the department and the commission with Sections 188 and 188.4 in the same manner as if such allocations had been expenditures upon state highways in that county."

Amendments read, and adopted.

Bill ordered printed, engrossed, and to third reading.

PRAYER

The following prayer was offered by the Chaplain, Rev. Father Luke Powleson:

O heavenly Father, guide us whom Thou hast placed in this high position of authority under Thy protection and grant that we may ever be alert to our responsibilities. In Thy hands and no other, can we find that knowledge so necessary for the progress of both our national, state, and civic life. Guide, guard, and elevate these, Thy chosen Legislators and give unto them the aid of Thy heavenly grace that they may, in the fulfillment of their duties carry out Thy will. Make them, we pray Thee, fitting examples of that leadership so necessary in this day and age so that they may not become self satisfied and self reliant, but rather more dependent upon Thee and Thy goodness. Look kindly upon our Senators, so that the wounds and scars of life which appear at times may be removed and that in Thee they may in grateful submission conform themselves more and more to the fulfillment of Thy will. Be Thou ever propitious to their shortcomings and bless them for their good deeds.—AMEN.

Mr. Kennedy is vice chairman of the committee and Mr. Enersen is chairman. The Drafting Committee consists of Mr. Jennings as chairman, Mr. Howland, and Mr. Minasian.

Mr. William R. Gianelli, Principal Hydraulic Engineer of the Department of Water Resources of the State of California, served as consultant to the committee.

Mr. Clarence H. Langstaff, Deputy County Counsel, County of Los Angeles, served as executive secretary of the committee, and Mrs. Isabel C. Nessler as recording secretary.

The committee has had 16 all-day meetings on the following dates: Friday, February 22d; Wednesday, March 6th; Wednesday, March 13th; Wednesday, March 20th; Saturday, March 30th; Sunday, March

31st; Saturday, April 6th; Sunday, April 7th; Saturday, April 13th; Sunday, April 14th; Friday, April 19th; Saturday, April 20th; Friday, April 26th; Saturday, April 27th; Sunday, April 28th, and Monday, April 29th.

The meetings on April 26th, 27th, and 28th included lengthy evening sessions. All of the meetings were held in Sacramento except the first, which was held in San Francisco. There was practically full attendance throughout all of the committee sessions.

In addition, the Drafting Committee had meetings on April 18th and 19th and has been in session almost continuously since Wednesday, April 24th.

The committee had available to it for its consideration and study the following material bearing directly upon the area of origin question and related problems:

Opinion of Attorney General Edmund G. Brown No. 53/298, dated January 5, 1955, relating to the constitutionality and effect of the county of origin statute (Water Code Section 10505) and the watershed protection statutes (Water Code Sections 11460 and 11463).

Opinion of Attorney General Edmund G. Brown No. 54/159, dated January 5, 1955, relating to applications of the Department of Finance to appropriate water pursuant to Water Code Section 10500 and proceedings involved in assignments of such applications.

Report of the Subcommittee on Areas of Origin of the Statewide Water Resources Committee of the California State Chamber of Commerce, dated November 30, 1956.

Report of the Attorney General's Committee of Water Lawyers on County of Origin Problems, dated January 3, 1957.

Report of the State Department of Water Resources to the Counties of Origin Subcommittee of the Joint Committee of the Legislature on Water Problems, dated January 4, 1957.

Report by Legislative Counsel Ralph N. Kleps, dated January 13, 1957, containing a comparative analysis of the proposals submitted by the Committee of the State Chamber of Commerce, the Attorney General's Committee and the Water Resources Department for the solution of the so-called area of origin problem.

Preliminary Report of Counties of Origin Subcommittee of the Joint Committee on Water Problems, dated January 17, 1957.

Final Report of Counties of Origin Subcommittee of the Joint Committee on Water Problems, dated March 7, 1957.

All of the foregoing material is gathered together in the Ninth Partial Report of the Joint Committee on Water Problems submitted to the President of the Senate, the Speaker of the Assembly and the Members of the Senate and the Assembly on March 11, 1957.

The background and nature of the "area of origin" problem have been fully and carefully analyzed in many of the reports which have previously been made upon this subject.* It would unduly extend the length of this report to repeat this material here.

* For example, see Opinion No. 53/298 of Attorney General Brown which is set forth in convenient form at pages 76 to 99 of the Ninth Partial Report of the Joint Committee on Water Problems, and Section 1 of the Report of the Subcommittee of the State Chamber of Commerce appearing at pages 157 to 164 of the same volume.

The committee has had before it the several proposals for constitutional amendments which have been introduced in the Senate and the Assembly during the current session of the Legislature. These are:

Senate Constitutional Amendment No. 1 (Regan et al.) 1957 Session, introduced January 8, 1957.

Assembly Constitutional Amendment No. 4 (Lindsay), introduced January 8, 1957.

Assembly Constitutional Amendment No. 38 (McGee et al.), introduced January 22, 1957.

Senate Constitutional Amendment No. 27 (Williams et al.), introduced January 23, 1957.

Assembly Constitutional Amendment No. 55 (Porter and Levering), introduced January 25, 1957.

Assembly Constitutional Amendment No. 68 (Allen et al.), introduced March 27, 1957, as amended.

Assembly Constitutional Amendment No. 75 (Masterson et al.), introduced April 25, 1957.

The meetings of your committee have been devoted entirely to a continuous and determined effort to prepare the text of an amendment of the Constitution of California which, if adopted, would provide a permanent solution of the area of origin problem and the numerous other water problems which are so closely related as to require concurrent treatment. The work of the committee has proceeded in an atmosphere of cooperation, and all of the members of the committee have held and retained cordial respect for each other's opinions and objectives. However, the membership of the committee is drawn from all parts of the State and includes representatives of divergent views. Differences of opinion have been inevitable and compromises have been essential.

The product of our joint effort is attached to this report in the form of a proposed text of a constitutional amendment.

The text of the proposed amendment is offered and recommended for your consideration. We believe that it presents an equitable and practical approach to the area of origin problem and that it embodies a framework within which the State of California may undertake a long-range program for the development and utilization of the water resources of the State for the ultimate benefit of all parts of the State.

Many of the provisions in this proposed amendment are innovations of substance or procedure. These provisions should receive, as doubtless they will, most careful and critical analysis, particularly as to their effect upon established operations and procedures, before being incorporated in a constitutional amendment for submission to the people.

The text is longer than we would wish, but we have been unable to express the essential principles in any shorter form. Each item in the proposal has been inserted for a specific purpose, but the result is an integrated composition which should be considered as a whole.

We cannot represent that all of the members of the committee would individually endorse all principles and policies nor endorse all paragraphs, sentences and phrases of the proposed amendment. It necessarily represents a combination and compromise of widely varying

individual views, and like any compromise it cannot coincide precisely with all of the views or objectives of anyone. Also, like the result of any compromise, it cannot be substantially changed without impairing the balancing of considerations upon which this text is based.

Individually and collectively we thank you for the opportunity of participating in this important endeavor. We also thank those who have assisted us in our deliberations, Mr. Gianelli, Mr. Langstaff, and Mrs. Nessler, and we also express appreciation to others who have given us factual data and other assistance, particularly Mr. Allan Post, Legislative Auditor, Mr. Rene L. Rothschild, Investment Advisor of the Department of Finance, and Mr. Harvey O. Banks, the Director of the Department of Water Resources.

Though somewhat arduous, our work has been enjoyable and we hope it will contribute to a solution of the problem.

**Proposed Water Rights Constitutional Amendment
(New Sections 5 to 10, Article XIV)**

(WATER DEVELOPMENT POLICIES)

SEC. 5. It is hereby declared that because of conditions prevailing in this State it is necessary for the State to assume a continuing responsibility for assuring the timely and economical development of the water resources of the State. In discharging this responsibility the State shall coordinate its activities with those of private enterprise, public agencies, and the Federal Government and may cooperate with them to that end.

(RESERVATIONS FOR SURPLUS WATER AREAS)

SEC. 6. (a) Each area of the State wherein water not subject to existing rights originates in quantities exceeding the reasonable ultimate requirements of such area and constituting a practicable source of water for use in other portions of the State shall be deemed for the purposes of Sections 5 to 10, inclusive, of this Article XIV to be a "surplus water area."

(b) Prior to authorization of the construction or acquisition of any facility by the State, a purpose of which is the exportation of water from a surplus water area, or before any assignment or relinquishment by the State to an assignee for such purpose shall become effective, the board shall determine the boundaries of each surplus water area affected thereby and shall reserve for use within each such surplus water area, from the water originating therein and not subject to existing rights, the quantities of water reasonably required for ultimate beneficial use therein. Each such reservation shall be in terms of finite quantities of water and specific sources thereof.

(c) All such determinations and reservations shall be made after investigation and consideration of relevant factors, including the long-range planning of the State for the development, conservation, and utilization of the water resources of such area, and after giving reasonable notice and opportunity to be heard in conformity with such procedure as the Legislature may prescribe.

(d) All such determinations and reservations shall be subject to judicial review by such court or courts in such manner as the Legislature may prescribe.

(e) Each reservation so made for any surplus water area shall be binding upon the State and its assignees.

(f) The board on its own motion or on petition of any interested person, may re-examine and revise, either by increasing or decreasing, any reservation made pursuant hereto at any time it appears that it is no longer reasonable; provided, that any such revision shall not impair any right to water or to the use of water which may have theretofore arisen out of contract with the State, as hereinafter provided, or which otherwise may have been acquired by any person, nor shall any such revision impair the right of the State under any application held by the State to appropriate water for the development and use of which a project has been theretofore authorized for construction or acquisition by the State pursuant to Sections 5 to 10, inclusive, of this Article XIV, nor shall any such revision impair the rights of any assignee of the State whose rights are already subject to a reservation made in accordance with Section 6 (b) of this article.

(g) The board shall notify the Governor and both houses of the Legislature whenever the amount of water available under the reservation made for a surplus water area has become inadequate to meet the reasonable requirements for beneficial use of water in such area. Thereupon, the State shall guarantee the prompt replenishment of the water supply of such area to the extent that the deficiency in the supply is caused by the exportation, through facilities constructed by the State or its assignees after the effective date of the original reservation, of water originating in the area. To meet this guarantee, the water required shall have first priority in deliveries from the next facility or project to be constructed by the State from which it can be delivered by practical and feasible methods, either by substitution for the water committed for use outside such area or by direct delivery within such area. Any additional expense involved in such replenishment of the water supply in excess of that which would be involved if there were no such exportation shall be borne by the State. The Legislature shall take such further action as may be necessary to fulfill this guarantee.

(FUNDS)

SEC. 7. (a) The Water Development Fund is created as a special fund in the State Treasury, the money, securities and increment of which shall be expended solely as provided in this section.

(b) There shall be deposited in the Water Development Fund:

(1) All revenues received by the State from the extraction of oil and gas from tide and submerged lands and state public lands in excess of ten million dollars (\$10,000,000) in each fiscal year, over and above the cost of administration of all such lands and any refunds authorized by law;

(2) Four million dollars (\$4,000,000) each month from the first revenues received in the General Fund after setting apart the moneys required to be applied by the State to the support of the Public School System and State University;

(3) All money in the Revenue Deficiency Reserve Fund;

(4) All money in the Investment Fund;

(5) All revenues over and above the cost of operation, maintenance, and the amounts required for the payment of principal and interest

on any bonds issued to secure funds for the construction of the project producing the revenues, received by the State from the sale or furnishing of water, water power, and electric energy from any state water development project, or in the case of a joint project, the portion of such revenues to which the State is entitled;

(6) The proceeds of the sale of any state bonds issued to provide funds for water resource development; provided, however, that if the bonds are authorized for the purpose of providing funds for the cost of designated facilities, the proceeds of the sale thereof, when deposited in the Water Development Fund, shall be used for that purpose and no other; and

(7) Any other funds made available to the Water Development Fund by appropriation, gift, grant, or any other means;

(8) Provided, however, that at any regular session the Legislature, by a vote of three-fourths of the members elected to each house, may reduce the amount of the revenues specified in subparagraphs (1) and (2) of this paragraph (b) to be deposited in the Water Development Fund during the next succeeding 12 months.

(c) Any money in the Water Development Fund may be appropriated by two-thirds vote of the members elected to each house of the Legislature for: (1) Construction or acquisition by the State, either alone or in conjunction with any person, of facilities authorized by the Legislature, or for the service of any indebtedness incurred in such construction or acquisition which is authorized by law; or (2) loans, on such terms, which may include the waiver of any interest charges, as may be prescribed by the Legislature to public agencies for the construction of facilities.

No appropriation from the fund shall be made for the construction or acquisition of any facility which is in substantial conflict with any general or coordinated plan approved by the Legislature for the development, conservation and utilization of the water resources of the State. The initial appropriation for any facility to be constructed or acquired by the State shall not be made until the department has certified to the Legislature that in its judgment the capital costs of the project of which such facility is a part will be repaid from the revenues from the project within such period of time as the Legislature may prescribe, except to the extent that the Legislature determines such costs to be nonreimbursable expenditures benefiting the State.

(d) Eighty percent (80%) of all money deposited in the Water Development Fund shall be used solely for the construction or acquisition of major inter-regional water transfer projects, and twenty percent (20%) shall be used solely for the construction or acquisition of projects of primarily local benefit and effect. By a three-fourths vote of the members elected to each house, the Legislature at any regular session may revise such percentages with respect to the money to be deposited in the Water Development Fund during the next succeeding 12 months.

(e) Subject to all the provisions of this Section 7, priority in the appropriation and expenditure of moneys in the Water Development Fund shall be given to completing at a reasonable rate of progress the authorized facilities and projects for which an initial appropriation

has been made to the extent necessary to supply water when required under any contract executed by the State as hereinafter provided.

(f) Whenever the Legislature authorizes the construction or acquisition by the State of any water storage reservoir that will develop water for use outside the watershed in which it originates and in which such water storage reservoir is located, the Legislature shall authorize such additional upstream water storage reservoirs and other facilities, except distribution systems, as may then be determined by the Legislature to have engineering feasibility and to be necessary and practical to satisfy the reasonable ultimate requirements of the area dependent upon such upstream development; and shall provide for the financing and construction by the State of each such upstream reservoir and other facility when it is needed.

(g) Whenever the Legislature authorizes the construction or acquisition by the State of any facility which will develop additional quantities of water for beneficial use, the department shall recommend, and the Legislature shall designate, the major area or areas to be served and the quantities of water to be allocated to each such area from such new development. Such allocations shall be in conformity with all applicable reservations of water made pursuant to Section 6 of this article and with applications heretofore filed by the State for water for the use of which a project was authorized prior to the effective date of this section. In making such allocations the Legislature shall give consideration to the reasonable ultimate requirements of the surplus water area for which such reservations were made and shall make allocations for that portion of the surplus water area which the Legislature determines should be served by the new development. Contracts executed by the State for the sale or delivery of such water shall conform to the designations and allocations so made. The Legislature may from time to time by the vote of two-thirds of the members elected to each house revise such allocations, but no such revision shall impair the obligation of any contract previously executed by the State.

(CONTRACTS)

SEC. 8. (a) Subject to existing rights and to reservations made pursuant to Section 6 and to allocations made pursuant to Section 7, the Legislature shall authorize the department to execute on behalf of the State, contracts for the sale or delivery of water to be made available by facilities or projects authorized for construction or acquisition by the State. Provision shall be made for contracts for permanent service, term contracts, and interim contracts to be effective only during periods when delivery is not required under permanent or term contracts. No right to water or to the use of water so contracted to be sold or delivered by the State adverse to the right of the person contracting therefor shall be acquired by any other person.

(b) Each such contract shall provide: (1) for the substitution of water in equal quantity and of substantially equal quality from an alternate source or sources of supply without increase in the contract price, (2) for periodic adjustment of the contract price to reflect any changes in costs of operation and maintenance, and (3) that the right to require delivery of water under such contract shall be limited to such water as shall be reasonably required for the beneficial use to be served.

(c) The price to be charged for water for irrigation at any point of delivery shall not exceed the cost of supplying such water at that point.

(d) The Legislature may also authorize the execution on behalf of the State of contracts for the sale or delivery of electric energy made available by any such facility or project.

(e) The provisions of Article I, Section 16 of this Constitution prohibiting the impairment of the obligation of contracts shall apply to all contracts made by the State pursuant to this Section 8, including contracts with public agencies. Any act of the Legislature dissolving any public agency which has so contracted with the State shall provide for continuity of adequate service in the distribution to ultimate consumers and users of the water so contracted for.

(f) The State may sue and be sued by any party to a contract made pursuant to this Section 8 in any court of competent jurisdiction on any cause of action arising out of such contract.

(GENERAL PROVISIONS)

SEC. 9. (a) No money shall be expended from the Water Development Fund for the construction or acquisition of any facility authorized prior to the effective date of this section for the purpose of exporting water from any surplus water area wherein it originates for use elsewhere in the State without first complying with the provisions of Section 6 of this article.

(b) In addition to the applications filed on behalf of the State for the appropriation of water before the effective date of this section, the department shall make and file such applications for the appropriation of unappropriated water as in its judgment are or may be required in the development and completion of the whole or any part of a general or coordinated plan, approved by the Legislature, looking toward the development, utilization, or conservation of the water resources of the State. No such application heretofore or hereafter filed shall be subject to any requirement of diligence on the part of the State without the vote of three-fourths of the members elected to each house of the Legislature. Any such applications may be assigned or a release of priority thereunder granted to any person for a purpose of development not in conflict with any such plan.

(c) Rights to water or to the use of water, whether adjudicated or not, existing on the date this section becomes effective shall be in no way impaired by the provisions of Sections 5 to 10, inclusive, of this Article XIV or by any action taken pursuant thereto; nor shall such provisions or actions pursuant thereto alter the legal effect of any application theretofore filed to appropriate water or of any action theretofore taken which, when taken, was in any way material to the creation of a water right or to the establishment of the nature or extent thereof except that any application so filed by the State shall be subject to the provisions of paragraphs (a) to (e), inclusive, of Section 6 of this article.

(d) No water development facility constructed by the State shall be used by any person other than the State for the transportation of water hereafter acquired by such person through the exercise of the power of eminent domain.

(DEFINITIONS)

SEC. 10. For the purposes of Sections 5 to 10, inclusive, of this article, the following terms shall have the following meanings:

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 2335.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 19, 1957

*To the Honorable Members of the Senate
Sacramento, California*

GENTLEMEN:

Senate Bill No. 2335, "An act making an appropriation for the construction of a building for use of the Division of Farm and Home Purchases of the Department of Veterans Affairs, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates \$80,000 from the Veterans' Farm and Home Building Fund of 1943 (exclusive of money therein from bonds) to the Department of Veterans Affairs for the construction of a new office building on the Women's Relief Corps property in Santa Clara County. Because of the inadequate office space in the present San Jose office of this department, there is a considerable delay in the processing of applications for veterans' farm and home loans, and an adequate new office building is urgently needed so that such applications may be acted upon within a reasonable time. In order to commence the construction of this new office building as speedily as possible, the funds provided by this bill should be made immediately available.

I therefore recommend consideration of Senate Bill No. 2335 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Any action or proceeding wherein the validity of the formation of the improvement district or of any of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the effective date of the resolution forming such district, or if an election is held, within three months from the date of such election, otherwise the formation of the improvement district and all proceedings in relation thereto, shall be held to be valid and in every respect legal and incontestable.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed five percent (5%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than *one thousand dollars (\$1,000)* *one hundred dollars (\$100)*. The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the district, countersigned by the secretary of the district, and the official seal of the district attached. The interest coupons of such bonds shall be signed by the treasurer of said district. All such signatures and counter signatures may be printed, lithographed or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the district and shall be issued in the name of the district and shall be designated "Bonds of

----- Municipal Water District for Improvement District No. -----" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the district may also be used for some other municipal water district purpose. Such moneys remaining from the sale of bonds of the district for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said

other municipal water district purpose or improvement district purpose until two-thirds of the qualified voters of said district or improvement district have consented thereto at a special election called in said district or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said district or improvement district, as the case may be, and in other respects the election shall be conducted as are other municipal water district elections.
